Facts to Actions: The CANSO Perspective

ICAO Global Runway Safety Symposium

**24-26 May 2011
Montreal, Canada**

CANSO Safety Standing Committee (SSC) Runway Safety Initiatives

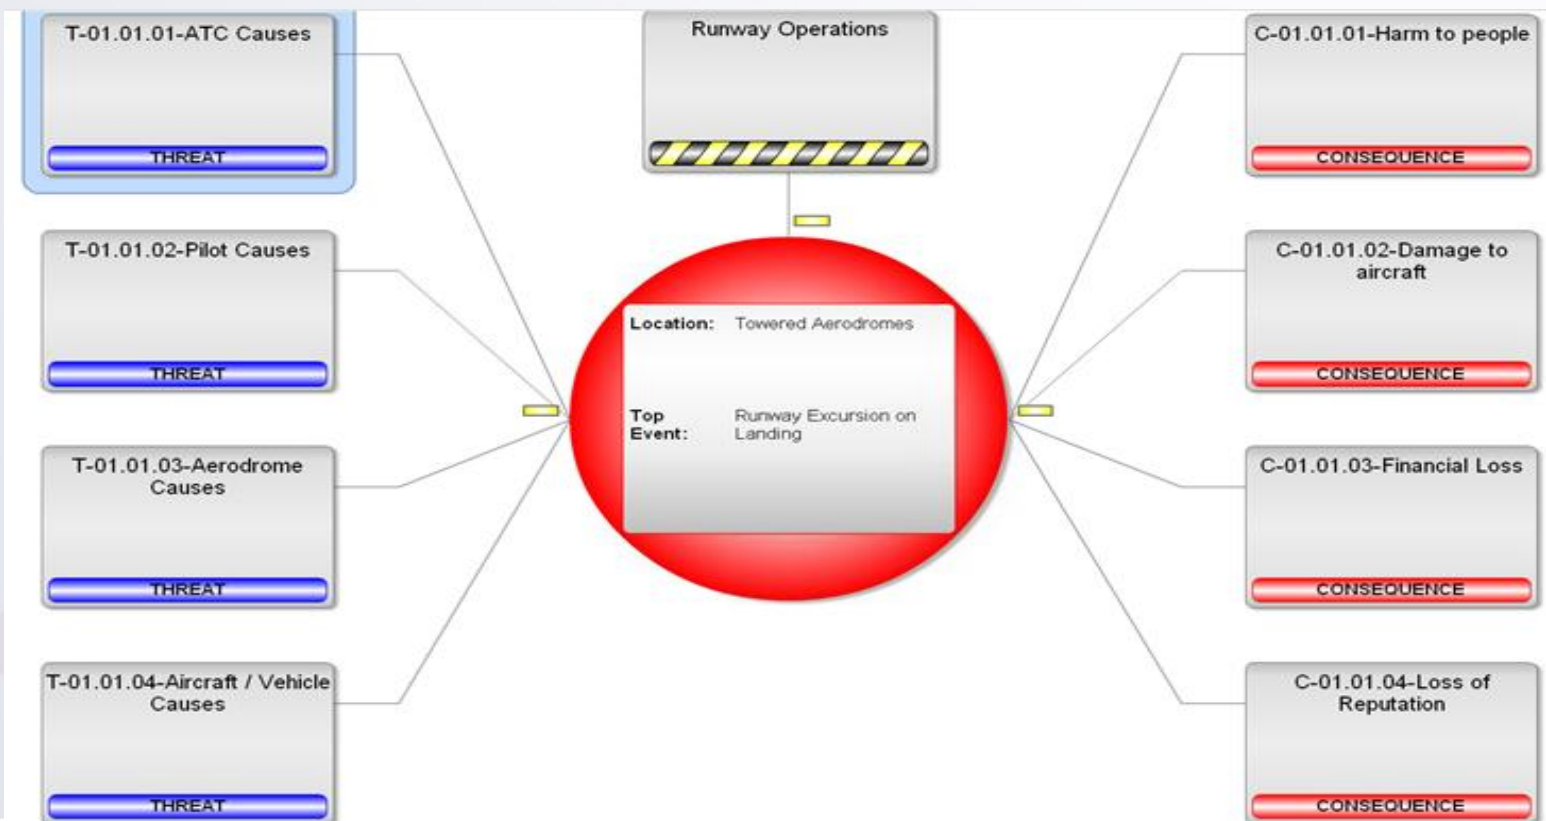

- What is the runway safety risk picture?
- How will we validate the picture?
- How do we ensure all aspects are considered?
- How do we ensure the work is not redundant?
- What implementation processes will be most effective?

Runway Safety Risk Picture: Bow-Tie Model

THREAT

EVENT

CONSEQUENCE

Data Driven through Industry Collaboration

From Facts to Action

- **Identify central focus areas with the CANSO Operations Steering Committee (OSC)**
- **Continue industry collaboration**
- **Avoid duplication of effort**

Summary

- **Validate the runway safety risk picture**
- **Effectively identify and recommend improvements**
- **Continue to collaborate across the industry**
 - CANSO Global ATM Conference
 - Regional safety seminars
