In their remarks both expressed their gratitude to the authorities of Botswana for accepting to host the 19th AFI Plan Steering Committee meeting in the wonderful city of Gaborone.

2.2. In her opening statement, Dr. Fang Liu highlighted the major activities conducted under the AFI Plan and the progress made since the eighteenth meeting of the Steering Committee. She indicated that implementation of the 2017 AFI Plan work programme is on course and is focusing on the ICAO assistance initiatives with States for improving EI levels, further resolution of outstanding SSCs, certification of international aerodromes, establishment and strengthening of Regional Safety Oversight Organizations (RSOOs) and Regional Accident and Incident Investigation Organizations (RAIO), as well as provision of safety-related training to further enhance aviation personnel skills.

2.3. Dr. Liu remarked that the progress made in the last six months was encouraging and informed the meeting that early in the year Equatorial Guinea achieved the 60% EI Abuja safety target and that out of the 4 States with outstanding SSCs in the region the SSC in Angola was resolved. She also informed the meeting of other notable progress observed in States such as Benin, Chad and Congo which were also expected to soon achieve the regional EI target. Furthermore, she highlighted the status of implementation of the AFI Plan projects on Search and Rescue (SAR), State Safety Programmes (SSP), Air navigation Service Provider (ANSP) Peer review, and Aerodrome certification, which are designed and implemented in support of achieving the broad goals.

2.4. Finally the Secretary General expressed her satisfaction with the commitment made by the African Ministers responsible for Civil Aviation during their meeting in Ezulwini, Kingdom of Swaziland, on the 24th of March 2017 on the occasion of the Forum on Regional Safety Oversight Organizations (RSOOs) for Global Aviation Safety. PART II – REPORT ON AGENDA ITEMS

3. ADOPTION OF THE AGENDA

3.1 The meeting reviewed and adopted the agenda as presented by the AFI Plan Secretariat.

4. DELIBERATIONS ON THE AGENDA

4.1 AGENDA ITEM 1: *PROGRESS REPORT ON THE IMPLEMENTATION OF THE AFI PLAN SINCE THE EIGHTEENTH MEETING OF THE STEERING COMMITTEE AND STAKEHOLDERS' ACTIVITIES*

AGENDA ITEM 1.1 Review of the progress report on the implementation of the AFI Plan since the eighteenth meeting of the Steering Committee and the status of the implementation of the 2017 work programme.

4.1.1 The AFI Plan Secretary presented Discussion Paper 01 and its attachments (A and B) that contain detailed information on the implementation status of the Recommendations and Decisions of the 18th SC meeting held on 30 November 2016 in Montreal, Canada, and the progress made in the implementation of the 2017 Work Programme.

4.1.2 The attention of the meeting was drawn to the following specific issues:

- the status of implementation of the Abuja safety targets and specifically the key AFI Plan goals for 2017 relating to the attainment of 60% EI by 80% AFI States, certification of 45% of international aerodromes, removal of all SSCs and implementation of the 2017 work programme;
- The removal of Angola SSC and the progressive improvement made in EI in the region;
- The high level aviation meetings held in Ethiopia (Global Aviation Training Symposium) , Swaziland (Global Forum on RSOOs), and Togo (AU STC and Ministerial Conference on SAR);
- The 3rd RASG AFI SC meeting and its outcome in relation to revising the Abuja safety targets and their integration with the AFI ANS targets;
- the support provided by partners and stakeholders towards attainment of some of the targets set for 2017;

- the positive impact and increased commitment obtained from States through High level engagements by the Secretary General and the President of the Council, and
- The support provided to the Association of African Aviation Training Organizations (AATO) to develop the aviation training roadmap for Africa.

AGENDA ITEM 1.2: *Review of the Status of Implementation of AFI Plan Projects*

4.1.3 The Steering Committee at its 17th meeting had reviewed a number of Project Proposals presented by the AFI Plan Secretariat and approved funding for projects related to Aerodrome Certification, ANSP Peer Review Programme, SSP Implementation and Search and Rescue (SAR) organization.

4.1.4 The Secretariat presented Discussion Paper 02 (DP02) and provided information on the status of progress made in the implementation of the above projects since their approval by the AFI Plan Steering Committee.

AGENDA ITEM 1.3 *Report on the proposed revised Abuja Safety Targets and Incorporation of Air Navigation Services Performance Indicators and Targets*

4.1.5 The Aviation Safety Targets for Africa, known as the “Abuja Safety Targets” were adopted by the African Ministers responsible for civil aviation at the Conference on Aviation Safety in Africa, held in Abuja, Nigeria in July 2012 through a Declaration on Aviation Safety; and were subsequently endorsed by the AU Assembly of Heads of State and Government in January 2013.

4.1.6 The status of implementation of the Abuja Safety Targets has been regularly presented to Stakeholders since the end of 2012. By the end of 2016, a number of the safety targets had been met. However, these good trends need to be reinforced, as some of the safety targets such as the improvement of the effective implementation of the ICAO Standards and Recommended Practices (SARPs) and aerodrome certification are yet to be met by many African States.

4.1.7 Considering the delay in meeting the deadlines set in some of the Abuja Safety Targets, new emerging Safety challenges in the areas of Air Navigation Services (ANS) in Africa as well as the decision of the 18th AFI Plan SC meeting to revise all the targets; AFCAC and ICAO working with Stakeholders under the framework of the Steering Committee of the AFI Regional Aviation Safety Group (RASC) developed and proposed a revised set of safety targets incorporating ANS safety targets which were presented to the meeting in Discussion paper (DP03).

4.1.8 The meeting reviewed the proposed revised targets and requested some improvements to be made, especially in order to align the deadline set to meet general and specific targets. It also requested the AFI Plan Secretariat to present the proposed revised targets to the upcoming RASG-AFI/4 and APIRG/21 meetings for their approval as the regional aviation safety and air navigation groups established by the ICAO Council.

AGENDA ITEM 1.4: *Progress Report on the Review of the African Aviation Training Road map*

4.1.9 The Association of African Aviation Training Organizations (AATO) presented Discussion Paper 04 on the progress made so far in preparing the Aviation Training Roadmap for Africa. The meeting was informed that on the basis of the 11th AATO Council decision, that the draft roadmap document be shared and discussed with aviation training stakeholders, AATO in collaboration with the AFI Plan Secretariat convened a stakeholders meeting back to back with the 4th ICAO Global Aviation Training and TRAINAIR PLUS Symposium in Addis Ababa, Ethiopia.

4.1.10 The AFI Plan Secretariat coordinated the stakeholders meeting which was held on 10th April 2017 and attended by 24 participants representing key stakeholders including Aviation Training Organizations (ATOs), the ICAO Global Aviation Training Office (ICAO-GAT), Eastern and Southern African and Western and Central African Regional Offices of ICAO (ICAO ESAF and WACAF), Singapore Aviation Academy, US FAA, African Business Aviation Association, African Aviation Services, Ethiopian Civil Aviation Authority, Ethiopian Airlines Academy and EGNOS Joint Programme Office, etc.

4.1.11 AATO informed the meeting that it is working to incorporate the feedback provided during the stakeholders' meeting and will coordinate with partners/ stakeholders to finalize the training roadmap as soon as possible.

4.1.12 The AFI Plan Secretariat presented Discussion Paper 05 (DP05) on the activities conducted by the African Flight Procedure Programme (AFPP) during Phase I (June 2014 to May 2017) and outlined the proposed operations for Phase II (2017/2020). The paper also indicated the challenges to be addressed to ensure successful transition and implementation, including timely payment of annual contributions by active participating States. It was noted that Phase II cannot be confirmed unless all Phase I payments are received. The meeting noted that Phase I of the Programme has been extended to November 2017.

AGENDA ITEM 1.6: *Outcomes of the Global Aviation Training and TRAINAIR PLUS Symposium (11-13 April 2017)*

4.1.13 The ICAO –GAT office gave an oral report on the outcomes of the Global Aviation Training and TRAINAIR PLUS Symposium held in Addis Ababa, Ethiopia, from 11 to 13 April 2017. During the symposium plenary sessions, panels and workshops were conducted over a 3-day period with discussions centered around the latest innovative tools and technologies available to improve training efficiency, the ways of bridging the gap between technical training and academic education in aviation, regional training collaboration and best practices for attracting, educating, training and retaining of Next Generation of Aviation Professionals. Additionally, several TRAINAIR PLUS Programme Members were recognized for their achievements.

4.1.14 Proposals emanating from the workshops were provided to ICAO in relation to regional collaboration between training organizations and the enhancement of training strategies. The Global Aviation Training Office is currently reviewing the various recommendations and taking steps to support their implementation in collaboration with the TRAINAIR PLUS Steering Committee and TRAINAIR PLUS Members.

4.1.15 In relation to the development of the African Training Roadmap, GAT was invited and attended the AATO Steering Committee Meeting held on 10 April 2017 in Addis Ababa. During this meeting GAT presented *the ICAO Aviation Training and Capacity-building Roadmap* which is now available to Member States and encouraged AATO to adapt and update its training roadmap in line with this ICAO Roadmap.
