

---

Ms. Myriam Pellerin began her career in French and international civil service, serving for 10 years in various law enforcement agencies and international organizations. She gained extensive experience in law enforcement organization and operations through successive roles within the French Police, the Gendarmerie, and French Customs.

---

Ms. Pellerin further expanded her expertise in international cooperation and border security by working as an International Cooperation and Communication Adviser for the French Passenger Information Unit (PIU), where she supported cross-border information sharing. She also served as a Law Enforcement and Capacity-Building Officer for Advance Passenger Information (API) and Passenger Name Record (PNR) with the United Nations Office on Drugs and Crime (UNODC).

In her current role, Ms. Pellerin is the Business Development Senior Manager for SITA at Borders, within the Customer Growth team, based in Paris. She focuses on supporting governments and stakeholders in enhancing border management and travel intelligence solutions.

Ms. Pellerin is a dedicated professional with a strong government background and proven capacity-building skills in border security, law enforcement, and passenger data management. Her commitment to improving global border operations and her extensive practical knowledge make her a valued expert in the field of travel intelligence and secure border facilitation.
