

# Asia Pacific Regional Aviation Safety Team (APRAST)

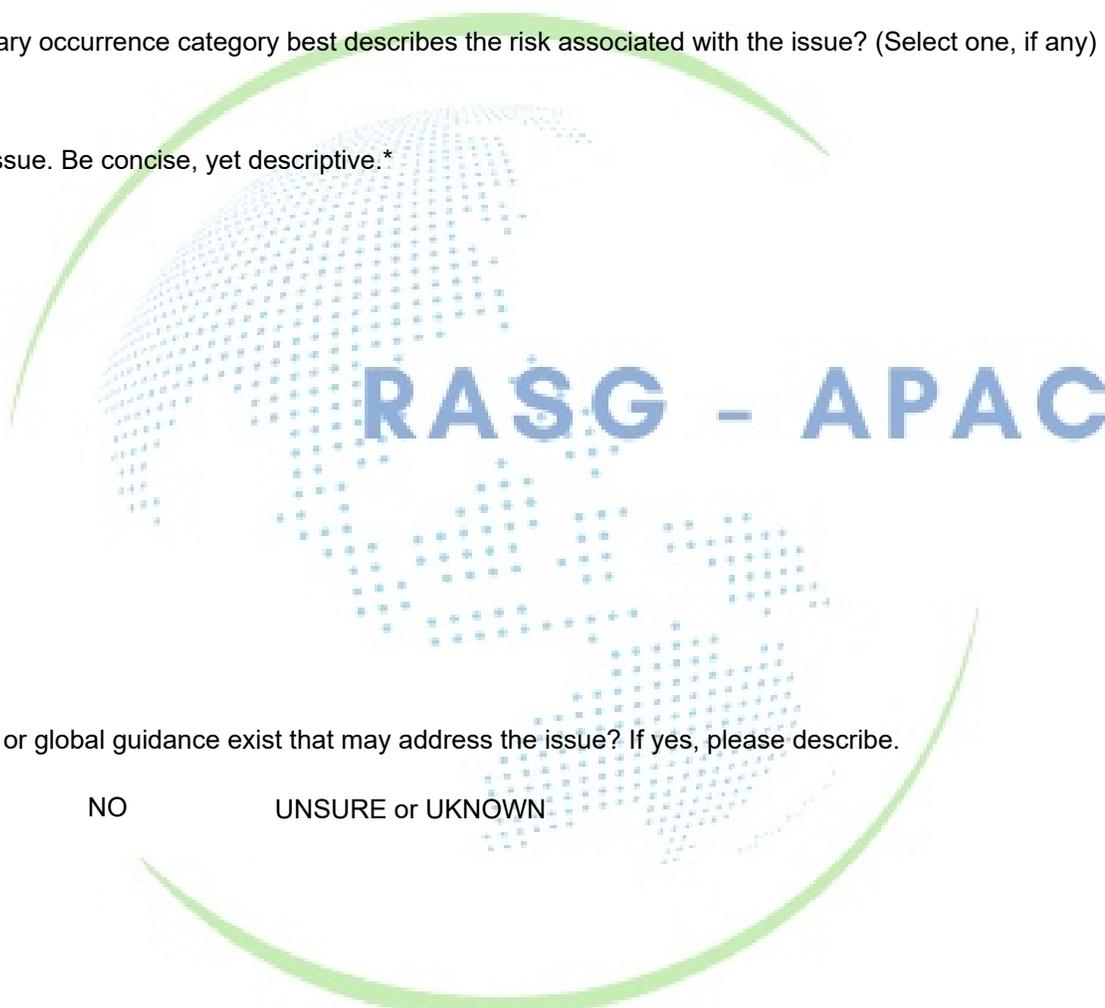

## Issue Review Request Form

The information provided on this form will assist the APRAST in understanding the issue and determining possible mitigation efforts.

1. Which primary occurrence category best describes the risk associated with the issue? (Select one)\* For definitions, please see the list of [CICTT occurrence categories](#).

2. Which secondary occurrence category best describes the risk associated with the issue? (Select one, if any)

3. Describe the issue. Be concise, yet descriptive.\*

4. Does regional or global guidance exist that may address the issue? If yes, please describe.

YES

NO

UNSURE or UNKNOWN

5. Has this issue been discussed at global or regional ICAO platforms (e.g., Assembly, AN-Conference, HLSC, DGCA Conference, RASG-APAC, panels or sub-groups)? If yes, please list and describe any decisions or outcomes.

YES

NO

UNSURE or UNKNOWN

6. What are your recommendations to mitigate the issue? Try to connect it to the causal and/or contributory factors attributed to the issue. Also, should specific entities address this issue (e.g., air operator, regulatory body, ANSP, aerodrome operator)?\*

**Note: Per the Global Aviation Safety Plan (Doc 10004), the RASG-APAC highly recommends submitting operational safety risks and/or emerging issues to the ICAO "Secure Portal on Operational Safety Risks and Emerging Issues." The secure portal is located at <https://www.icao.int/safety/GASP/Pages/Secure-Portal.aspx>.**
