COVID-19 Safety Risk Management

A new Handbook for Civil Aviation Authorities (CAAs) on the Management of Aviation Safety Risks related to COVID-19 (ICAO Doc 10144) was developed with the support of aviation experts serving on the ICAO Safety Management Panel. The guidance can be applied by States at different levels of State Safety Programme (SSP) implementation. Practical information and tools to complement the handbook are in the process of being identified and developed to be posted on the new webpage related to COVID-19 Safety Risk Management on the Safety Management Implementation (SMI) website (www.icao.int/smi-covid19SRM).
