FREQUENTIS

Frequentis safety-critical communication and information solutions leverage more than seventy years of experience showcasing true leadership in this market. With deep cross-industry experience in civil aviation, defence, public safety, maritime and public transportation markets; the company has built upon its initial control centre voice communications focus to develop deep expertise in these five areas of core competence.

Frequentis Air Traffic Management (ATM) provide functionality in support of the needs of today's Air Navigation Service Providers (ANSP). Embracing digitalisation, virtualisation and innovation, these solutions are an essential enabler to lead ANSP through future evolutions of their infrastructure.
