STATUS UPDATE ON AIDC SYSTEM WITH ADJACENT UNITS

(Presented by Lao PDR)

SUMMARY

The Proposal of AIDC Implementation Plan Phase 2 for Lao PDR

1. INTRODUCTION

1.1 The AIDC Implementation for Lao PDR has been conducted with some neighboring ACCs. Thus, deepening continually on AIDC Implementation is significant. The objectives to carry on AIDC Implementation Phase 2 are to strengthen the capacities of AIDC usage and improve the functionalities in more efficient ways.

For these reasons, we would like to propose that AIDC Implementation Phase 2 should involve these AIDC messages namely: CPL, PAC, MAC, CDN and REJ with the adjacent units.

2. DISCUSSION

2.1 The states concerned should be involved in the discussion of AIDC Implementation Phase 2 on additional AIDC messages that we referred in the introduction, for instance:

- CPL: Current Flight Plan
- PAC: Pre-activation
- MAC: Condition Cancellation
- CDN: Coordination
- REJ: Rejection
