## INDRA SISTEMAS, S.A.

Indra is a leading global technology and consulting company focused on being the technological partner for core business operations of its customers worldwide. It is a world leader in providing proprietary solutions in the Air traffic, Transport and Defense & Security markets, and a leading company in Digital Transformation services through its affiliate Minsait.

Indra has set an ambitious goal to boost digitalization through different projects such as the development of a solution that will transform Air Traffic Management by optimizing traffic flow, the provision of services in the cloud -enabling constant evolution-, and the management of airports from remote locations with remote tower solutions. Furthermore, Indra has recently engaged in a project to deploy a constellation of low-orbit satellites that will provide surveillance and communications services to cover oceanic and remote locations.

With more than 100 years of combined experience in the Air Traffic Management industry, Indra has successfully installed more than 300 air traffic control centers in the five continents, representing more than 25% of total world airspace, and implemented over 5,700 ATM solutions proving to be a leading player in every segment of the industry. In the field of R&D, Indra is one of the leading companies in SESAR program and a founder and only technological partner of the ITEC Alliance, aimed to develop the Single European Sky initiative.
