Agenda Item 7: Updates from the Sub-groups

PROGRESS UPDATE – ICAO APAC ANNUAL SAFETY REPORT 2021

(Presented by SRP Working Group)

SUMMARY

This paper provides a progress update on the development of the ICAO APAC Annual Safety Report (ASR) for 2021.

1. INTRODUCTION

1.1 Work is yet to commence on the 2021 APAC Annual Safety Report. Data has been received from the Occurrence Validation Study Group, but some accident records require further validation from member states. Once such validation has been confirmed, data files for the 2021 Annual Safety Report will be refreshed.

2. DISCUSSION

2.1 Source documents used to populate the ASR are being revised to simplify data validation and minimise the prospect of data errors. Planning is also underway in relation to the development of the published version of the document with such work to again be provided by the Civil Aviation Safety Authority of Australia.

2.2 As with ASR 2020, such design work will commence prior to RASG approval to ensure the report can be produced prior to the October 1st deadline (timetable attached). Any changes from RASG will be made to the published version of the document. This minor change provides an additional fortnight in contingency time.

Key dates for the delivery of the Annual Safety Report remain:
