Building a future we can all trust

NOKIA

We create technology that helps the world act together.

As a trusted partner for critical networks, we are committed to innovation and technology leadership across mobile, fixed and cloud networks. We create value with intellectual property and long-term research, led by the award-winning Nokia Bell Labs. Adhering to the highest standards of integrity and security, we help build the capabilities needed for a more productive, sustainable and inclusive world.

Our globally proven mission-critical solutions will lift your ground-ground communications networks to new heights of security, flexibility and reliability. We support legacy applications and emerging services with industry-leading IP/MPLS that provides one network for voice and data. Our managed services solution lets you avoid worrying about your network and stay focused on your mission-critical operations. Our security solution helps you turn cybersecurity from reactive to automated and proactive.
