The meeting was attended by **89** participants from **21** Member States/Administration and **1** Industry. CRV OG/10 meeting report, working papers, information papers, and other resources can be accessed by following link:

<https://www.icao.int/APAC/Meetings/Pages/2022-CRV-OG-10.aspx>

19-21/04/22

December, 2022, any additional charges may be imposed. The CRV OG/9 meeting debated the rationale to extend CRV contract, and agreed that it will base on States intention to join CRV.

2.3 As a follow up action of **ACTION ITEM 9-4**, the ICAO APAC Office issued the State Letter to request States/Administrations to share the intention to join CRV and its Tentative Timelines. In response, total **13** (thirteen) member states shared their intention to join CRV along with tentative timelines, including 10 (ten) States/Administration intend to join CRV by Q4 2022, 2 (two) States intend to join CRV after Q4 2022, and 1 (one) State has no plan yet.

2.4 To follow up **ACTION ITEM 9-5**, the first meeting of **ICAO CRV Steering Group** created by CRV OG/9 was held on **31 March 2022**. The meeting reviewed the responses received from Member States, discussed the requirement of additional efforts to support pacific Member States to join CRV, and advised to extend the contract duration for **one additional year**.

2.5 With aforementioned, the CRV OG/10 meeting agreed to formulate the following Draft Conclusion for consideration by the ACSICG/9 meeting.

<b>Draft Conclusion ACSICG/09/XX (CRV OG/10/01): Extension of CRV Contract for one year</b>	
<p>What: <b>a)</b> Recognizing that as per current contract, all authorities shall join the CRV project and sign the relevant Service Contract(s) with PCCWG with the billing start date on or before <b>31 December 2022</b> to not impose additional charges by the service provider and based on the survey responses of 2022, many Member States are in process to join CRV which may not be completed by December 2022, it is recommend to extend <b>current CRV contract for one year</b>.</p> <p><b>b)</b> If agreed to extend, as per amended CRV contract, all authorities shall join the CRV program and sign the relevant Service Contract(s) with PCCWG with the billing start date on or before <b>31 December 2023</b> to not impose additional charges by the service provider.</p> <p><b>c)</b> After the extension, the CRV contract expiry date will be <b>31 December 2028</b>.</p>	<p>Expected impact:</p> <p><input type="checkbox"/> Political / Global</p> <p><input type="checkbox"/> Inter-regional</p> <p><input checked="" type="checkbox"/> Economic</p> <p><input type="checkbox"/> Environmental</p> <p><input checked="" type="checkbox"/> Ops/Technical</p>
<p>Why: Several ICAO Member States have requested to extend CRV contract due to COVID-19 pandemic in CRV Implementation webinar held in 2021 and based on the response of the survey done in 2022, many Member States are in process to join CRV which may not be completed by December 2022.</p>	<p>Follow-up: <input checked="" type="checkbox"/> Required from States</p>
<p>When: 21-Apr-22</p>	<p>Status: Draft to be adopted by PIRG</p>
<p>Who: <input checked="" type="checkbox"/> Sub groups <input checked="" type="checkbox"/> APAC States <input checked="" type="checkbox"/> ICAO APAC RO <input type="checkbox"/> ICAO HQ <input type="checkbox"/> Other:</p>	

2.6 After endorsement and adoption of the proposed Draft Conclusion by ACSICG/9, CNS SG/26, and APANPIRG/33, ICAO Secretariat will inform Member States about the extension of the current contract on same Terms and Conditions.

2.7 Singapore queried for the rate for additional one year term after CRV contract extension. The meeting was informed that the current contract extension will be based on same terms and conditions and rates. After initial five years term, states may renew the CRV contract on yearly basis till expiry of the contract. However, States and PCCWG may negotiate bilaterally for better rate

to renew the contract for more than one year. Nevertheless, the last date of contract cannot exceed CRV contract expiry date.

*Upgrade/Downgrade/Addition of New Services or Sites in CRV Contract – Sec (WP/03)*

2.8 The paper presented the relevant outcomes of the first Meeting of the ICAO CRV Steering Group for the discussion to upgrade/downgrade/addition of new services or sites into current CRV contract.

2.9 Considering Bhutan CRV post implementation issue raised on CRV OG/8, which further discussed by ACSICG/8, the meeting agreed that actions need to be taken to discuss this issue with States should have option to upgrade/downgrade the circuits based on the need as **ACTION ITEM 8-3**. WP/09 was presented by PCCWG in CRV OG/9 on the matter which proposed termination charges for States as well as mandate of five years terms in case of upgrade/downgrade/addition of new services or site, which was not agreed by the meeting. Therefore, the **ICAO CRV Steering Group** was created to devise the terms and conditions for addition of new services, upgrade/downgrade of packages along with addition of new sites by contracted States into their contract.

2.10 In the first meeting of ICAO CRV Steering Group held on **31 March 2022**, PCCWG shared the revised proposal for upgrade/downgrade/addition of new sites and services with reasonable pre-estimate of the anticipated losses suffered by PCCW Global. The same proposal was presented by PCCWG by SP/01 in CRV OG/10.

2.11 The revised proposal **withdraw cancellation charges and mandate of five years term** for each **upgrade** case and **addition of new sites/services**. Therefore, Member States may upgrade or add new sites or services in their contract without any additional charges or additional terms on the same rate. The revised proposal recommended to calculate **pre-estimate of the anticipated losses** suffered by PCCW Global by a proposed formula in case of **downgrade** and proposed to share the anticipated losses between PCCWG and States equally. Additionally, the mandate of five years terms for downgrade cases was withdrawn. Therefore, Member States may downgrade the current package in their contract with additional charges of 50% of **the anticipated losses** but without additional term on the same rate.

2.12 The proposal was accepted by all members of CRV Steering group for submission to CRV OG/10 deliberation and agreement.

2.13 The CRV OG/10 meeting deliberated and reviewed the proposal submitted by PCCWG for upgrade/downgrade/addition of new services or site into current CRV Contract, and endorsed the proposal to work further for revision of relevant documentation of CRV common package.

2.14 CRV OG Chair (Asia) appreciated the support and contribution of ICAO CRV Steering Group members for presenting a pragmatic solution to the meeting.

2.15 India enquired when the presented proposal would be formally approved by PCCWG and reflected into relevant documentation of CRV common package. PCCWG informed that the formalization of the proposal would be ready tentatively by **May 2022**.

2.16 ICAO secretariat added that next ICAO CRV Steering group will review and discuss the phrasings of revised terms and conditions prepared by PCCWG in **July 2022**. The revised common

**Agenda Item 3**

19-21/04/22

package would be presented to CRV OG/11 for endorsement and approval. However, the presented proposal is applicable immediately after the endorsement by CRV OG/10 and ACSICG/9.

*Upgrade/Downgrade/Addition of New Services or Sites in CRV Contract – PCCWG (SP/01)*

2.17 PCCWG presented scenarios, illustrations, and formulas for various upgrade/downgrade options for member states' understanding.

*CRV Operations Manual - New Zealand (WP/04)*

2.18 New Zealand presented the status of the current draft of the CRV Operations Manual. The meeting was informed that since publication of the CRV Operations Manual in December 2020, there have been many updates including those coming from the Ad Hoc Groups. The current DRAFT version of the Operations Manual is ready for publication as version 1.1. The updates in different sections were explained in detail in this paper.

It was added that Member States can request access to the manual by requesting access to the portal by following the steps mentioned on [CRV Landing Page](#).

2.20 With aforementioned, the CRV OG/10 meeting endorsed the following draft Decision for ACSICG/9 adoption.
