Subject : **Air Traffic Flow Management / Airport Collaborative Decision Making Integration Webinar and Twelfth Meeting of the Asia/Pacific Air Traffic Flow Management Steering Group (ATFM/SG/12) (Video Teleconference, 12 – 16 September 2022)**

Action required: 1) To submit paper(s) and presentation(s) by **26 August 2022**; and
2) To complete online registration by **2 September 2022**.

Sir/Madam,

I am pleased to invite your Administration to participate in the Air Traffic Flow Management (ATFM) / Airport Collaborative Decision Making (A-CDM) Integration Webinar and the Twelfth Meeting of the Asia/Pacific (APAC) Air Traffic Flow Management Steering Group (ATFM/SG/12) which will be held by Video Teleconference, from 12 – 16 September 2022.

Implementation of ATFM and A-CDM systems improves flight predictability and enhances safety, capacity and efficiency. The harmonization and integration of ATFM and A-CDM optimizes the entire flight process from gate to gate. A webinar is proposed to be held on 12 September on the ATFM and A-CDM integration process, challenges and benefits. The main objective of the webinar is to improve understanding by all stakeholders of the benefits A-CDM integration with ATFM can offer and how this combined implementation could be achieved. The webinar programme is under development, and will be uploaded to the meeting web-page in due course.

The attendance of participants of previous ATFM/SG meetings, and particularly ATFM/SG/11 (2021) is encouraged. It is further recommended that any other nominated participants should preferably have practical, recent operational experience and knowledge of the following:

- airport and airspace capacity constraints;
- current Collaborative Decision-Making (CDM) and ATFM practices and procedures;

2/...

- Airport Collaborative Decision-Making (A-CDM) and its interoperability with ATFM
- The use of meteorological information to support capacity analysis in the Pre-Tactical and Tactical ATFM phases;
- ATC surveillance and communications capability;
- network communications technology and applications; and
- System-Wide Information Management (SWIM) and associated information exchange models.

Enclosed herewith are the ATFM/A-CDM Integration workshop and ATFM/SG/12 Provisional Order of Business (**Attachment A**), Provisional Agenda (**Attachment B**) and Video Teleconference Instructions (**Attachment C**). I am requesting that you kindly complete online registration(s) of the delegate(s) from your Administration that will be attending the meetings by **Friday 2 September 2022** in which the link is provided at the meeting webpage.

In order to make the meeting more productive and effective, it is strongly urged that States/International Organizations submit papers and presentations to the meeting **no later than two weeks prior to the meeting date** by email to the Regional Office. In the event that papers are received after **Friday 26 August 2022** they will normally be treated as a flimsy, and may only be presented to the meeting if time permits and after all other papers correctly submitted before the deadline have been read.

Participants should obtain meeting materials prior to the commencement of the meeting from the ICAO Regional Office website at <http://www.icao.int/APAC/Meetings/Pages/default.aspx>.

APAC Administrations are reminded of *Conclusion ATM/SG/5-3*, which urged Asia/Pacific Administrations to report their ATFM implementation status at least once annually, by no later than 30 April each year, using the ATFM Implementation Status Report Form. The status of implementation reported to the ICAO Regional Office will be reported to ATFM/SG/12. The Regional ATFM Monitoring and Reporting Form is available in MS Excel format on the ICAO Asia/Pacific Regional Office eDocuments web page at <https://www.icao.int/APAC/Pages/edocs.aspx>. Status reports received by **Friday 26 August 2022** will be included in the relevant Secretariat Working Paper.

Participants should note the following VTC modalities:

- VTC link details will be sent to registered participants in the week before the meeting;
- only registered participants will be admitted to the meeting VTC;
- Information Papers (IPs) will not be read during the meeting;
- each day of the meeting is expected to be conducted in two sessions of about two hours each, with the possibility of a ‘rest day’ or a free afternoon to enable catchup;
- in the event of insufficient time being available for the usual review of the draft meeting report, it may be deferred to the week following the meeting, and conducted by email circulation of the draft report; and

- recording of the VTC may be conducted for Secretariat note taking/report drafting purposes, but not for public dissemination.

Yours sincerely,
