Subject : **Twelfth Meeting of the FANS Interoperability Team – Asia (FIT-Asia/12)**
(Video Teleconference, 25 – 28 July 2022)

Action required: 1) To provide Data Link Performance Monitoring Analysis Reports as soon as possible;
2) To submit paper(s) and presentation(s) by **08 July 2022**; and
3) To complete online registration by **15 July 2022**.

Sir/Madam,

I am pleased to invite your Administration to participate in the Twelfth Meeting of the FANS Interoperability Team – Asia (FIT-Asia/12) which will be held by Video Teleconference, from 25 – 28 July 2022.

Enclosed herewith are the Provisional Order of Business (**Attachment A**), Provisional Agenda (**Attachment B**) and Video Teleconference Instructions (**Attachment C**). I am requesting that you kindly complete online registration(s) of the delegate(s) from your Administration that will be attending the meetings by **Friday 15 July 2022**. A link for online registration is provided at the meeting webpage.

In order to make the meeting more productive and effective, it is strongly urged that States/International Organizations submit papers to the meeting **no later than two weeks prior to the meeting date**, via email to the Regional Office at apac@icao.int. In the event that papers are received after **Friday 08 July 2022**, these will normally be treated as a flimsy. Participants should obtain meeting materials from the ICAO Regional Office website at <http://www.icao.int/APAC/Meetings/Pages/default.aspx> prior to the commencement of the meeting.

States are reminded that data link performance monitoring analysis reports were requested to be made available by 31 March 2022, to permit their collation into Aggregated Regional Data for reporting to FIT-Asia/12 and the Regional Airspace Safety Monitoring Agency (RASMAG), in accordance with the following RASMAG Conclusions:

Conclusion RASMAG/23-2: PBCS Action List for ANSPs; and

Conclusion RASMAG/23-3: Data Link Performance Analysis Reporting Templates

2/...

States are also reminded of **Conclusion RASMAG/24-2: Continuous Data Link Performance Monitoring** which *inter alia* urged States to provide narrative information on efforts made to determine the causes of poor performance, action taken to rectify poor performance, and the results of that action, in annual performance monitoring analysis reports to FIT-Asia. Accordingly, States are requested to provide a working paper to the FIT-Asia/12 meeting to facilitate discussion and further analysis of data link performance issues.

States that currently have APANPIRG Air Navigation Deficiencies recorded for failure to meet the data link performance monitoring and analysis requirements of Annex 11 should also be prepared to provide a documented status report of corrective actions taken. If the status report is available well before the **Friday 08 July 2022** Working Paper final cut-off date, then States and Administrations are encouraged to send this data to the meeting Secretariat so this can be included in the relevant ICAO Working Paper.

Participants should note the following VTC modalities:

- VTC link details will be sent to registered participants in the week before the meeting;
- only registered participants will be admitted to the meeting VTC;
- Information Papers (IPs) will only be read during the meeting if spare time becomes available;
- each day of the meeting is expected to be conducted in two sessions of about two hours each, with the possibility of a 'rest day' or a free afternoon to enable catchup;
- in the event of insufficient time being available for the usual review of the draft meeting report, it may be deferred to the week following the meeting, and conducted by email circulation of the draft report; and
- recording of the VTC may be conducted for Secretariat note taking/report drafting purposes, but not for public dissemination.

Yours sincerely,

Tao Ma
Regional Director
