Twenty-Seventh Meeting of the Regional Airspace Safety Monitoring Advisory Group (RASMAG/27)

Video Teleconference, 22 – 25 August 2022

**Agenda Item 5: Airspace Safety Monitoring Activities/Requirements in the Asia/Pacific Region**

**JASMA ASSESSMENT OF NON-RVSM APPROVED AIRCRAFT**

(Presented by JASMA)

**SUMMARY**

This paper presents a list of operator-aircraft combinations operating within the RVSM airspace of Fukuoka Flight Information Region (FIR) with no registration of RVSM approval in the Knowledge Services Network (KSN) approval databases as of July 2022.

**1. INTRODUCTION**

1.1 The Japan Airspace Monitoring Agency (JASMA) has been continuing studies of RVSM non-approved flights operating in the RVSM airspace of Fukuoka Flight Information Region (FIR).

**2. DISCUSSION**

2.1 The flight plan information utilized for the monthly examination was the actual record of the flight plans for the month extracted from the Japan Civil Aviation Bureau (JCAB)’s Flight Object Administration Center System (FACE). JASMA compared flight plans of RVSM flights with the global RMA’s latest approval databases uploaded to the Knowledge Services Network (KSN) website every month.

2.2 **Table 1** shows the aircraft which were flying in the RVSM airspace of Fukuoka FIR with “W” on their flight plans for the period from January 2022 to May 2022, but the aircraft’s RVSM approval were not registered in the KSN databases as of June 2022.

2.3 Almost all listed aircraft on the table were identified once or a few times during the period from January to May 2022. JASMA would like to express our appreciation for all RMAs updating their RVSM approval database and supporting us patiently.
