

ICAO

International Civil Aviation Organization**SIXTH MEETING OF SPECTRUM REVIEW WORKING GROUP (SRWG/6)**

Video Teleconference, 1 – 3 March 2022

Agenda Item 8: Review POC of States on frequency affairs**REVIEW POC OF STATES**

(Presented by the Secretariat)

SUMMARY

This paper presents the current status of POCs of States on frequency related affairs for review and update.

1. INTRODUCTION

1.1 The current practice of aeronautical frequency coordination performed by the ICAO Regional Office is implemented as communication between the ICAO regional officer and the Point of Contact (POC) in different States/Administrations.

1.2 The currency and completeness of the POC list is basic requirement for efficient and timely coordination.

2. DISCUSSION

2.1 The current process for frequency coordination has served the APAC community well over the years and is expected to do so for the foreseeable future. It is based on a minimum bureaucracy when performing the frequency coordination and registration.

2.2 However, due to the turnover of staff in ICAO APAC Regional Office and in civil aviation organization of States, regular review of the POC is deemed necessary.

2.3 A drafted POC list based on participant list of SRWG/4 was provided in SRWG/5 through WP06 for review and update.

2.4 As the follow up action, ICAO APAC Office issued a State Letter Ref.: T 8/8.9 - AP057/21(CNS) with Subject: *Focal Point for Frequency Coordination* on 08 April 2021, to remind Administrations to revise and update the POC on frequency affairs. The State Letter is provided in **Appendix A** to this paper.

2.5 The ICAO Secretariat presented WP21 to CNS SG/25 to highlight the need to contact Air Navigation Service Providers (ANSPs) from time to time for CNS-related issues, both for urgency such as network issues, cyber security and follow-up on cyber-attacks etc. and for administrative purposes and regional coordinated planning such as AMHS ad-hoc routing, frequency allocations etc. The CNS SG/25

Agenda Item 8

1-3/03/22

meeting reviewed and further updated relevant POC lists. The latest POC on frequency affairs is provided in **Appendix B** to this paper.

2.6 As the POC list has been established and regularly maintained, only the correspondence from the POC of Administration to this Regional Office on frequency affairs will processed in due course.

3. ACTION BY THE MEETING

3.1 The meeting is invited to:

- a) note the information contained in this paper;
- b) review and update the POC information in **Appendix B**; and
- c) discuss any relevant matters as appropriate.

08 April 2021

Subject: Focal Point for Frequency Coordination

Action Required: Reply by **10 June 2021**

Dear Sir/Madam,

I wish to remind your Administration that the Third Asia/Pacific Regional Air Navigation (ASIA/PAC/3 RAN) Meeting, held in Bangkok in 1993, agreed that the frequency lists prepared by the Asia and Pacific Regional Office would be the frequency planning documents for the Region. The ICAO APAC Regional Office, based on the information provided for this purpose by States, will issue Frequency Lists Nos. 1, 2 and 3 at periodic intervals [ASIA/PAC/3 RAN, Conclusions 11/4, 11/5 and 12/9].

With the provision of the program Frequency Finder, which offered a tool to assist ICAO Regional Offices and States to manage and coordinate aeronautical frequency assignments, and the implementation of APANPIRG **Conclusion/26/47** and **Conclusion/26/48**, the transition to a global database for VHF communication bands coordination using the ICAO Frequency Finder tool has taken place since November 2016, there was no more regular publication of Frequency List No.3, as the global database of frequencies included in the Frequency Finder would provide an up-to-date status of frequencies assigned or used by States/Administrations.

In order to support the secured access to Frequency Finder and further improve the administrative aspect of the current process for frequency coordination and registration, the Twenty Fourth Meeting of the Communications, Navigation and Surveillance Sub-group of APANPIRG (CNS SG/24) adopted the following Conclusion:

Conclusion CNS SG/24/8 – Establishment a list of focal point responsible for the operation of Frequency Finder in States.

That, States in APAC Region are requested to nominate a focal point responsible for operation of the Frequency Finder and coordination for frequencies assignments with ICAO APAC Regional Office in order to reduce operational error and improve quality management for the coordination process.

It is suggested to nominate **one main focal point plus two associate focal points** for one State/Administration which is capable to do so, to ensure the effective correspondence for normal and emergency aeronautical frequency coordination. A sample of Focal Point List prepared by the Fifth Meeting of Spectrum Review Working Group (SRWG/5) is provided in **Attachment** to this letter.

You may revise or provide the information relevant to your Administration and send back the updated list through e-mail: apac@icao.int, with a copy to ylo@icao.int. I would be grateful if you could have the list completed as early as possible, **preferably not later than 10 June 2021**.

Yours sincerely,

Manjit Singh
Acting Regional Director

Enclosure:

ICAO APAC Focal Point for Frequency Coordination

ICAO APAC FOCAL POINT FOR FREQUENCY COORDINATION

Date: 7 April 2021

STATE/NAME	TITLE/ORGANIZATION	TEL/FAX/E-MAIL	REMARKS
