PCCW Global

PCCW Global is a leading international communications service provider, offering the latest mobility, voice and data solutions to multinational enterprises, telecommunications partners, cloud and application service providers. With a network footprint reaching over 3,000 cities in 160+ countries across 5 continents, our truly global coverage combined with local on-the-ground knowledge has helped us build best-in-class global connections linking Africa, the Americas, Asia Pacific, Europe and the Middle East.

In 2018, PCCW Global was chosen by the International Civil Aviation Organization (ICAO) as the exclusive provider of the Common aeRonautical Virtual private network (CRV) in the APAC region. The CRV network enables Air Navigation Service Providers (ANSPs) to utilize PCCW Global's high-speed international IP network and diverse infrastructure to establish crucial connections for various aviation-specific applications, including AMHS, AIS, and Ground to Ground voices. Currently, there are more than 25 ANSPs in the APAC Region connected to the CRV network, and this number continues to grow.

Lacle Aviation Consultants

Lacle Aviation Consultants was established by a group of consulting engineers having previously worked for a major international ANSP for many years. Lacle is an independent specialist CNS/ATM engineering consultancy specialising in issues related to airport safeguarding, covering height restrictions, CNS/ATM equipment and flight operations. Other than these core capabilities, the company has experts in airspace and airport design, ATM procedures and operations, plus airport capacity/demand balancing and environmental studies. Based here in Hong Kong, the team has grown from the 5 founding members to 12 in the 4 years the company has been operating and collectively has over 200 man-years of experience. They have an extensive track record having already completed more than 80 studies in a wide range of topics. They have current projects in Australia, the Philippines, Thailand and Singapore in addition to their long-term commitments in supporting the expansion of Hong Kong International Airport.
