PROGRESS UPDATE – ICAO APAC ANNUAL SAFETY REPORT 2023

(Presented by SRP Working Group)

SUMMARY

This paper provides a progress update on the development of the ICAO APAC Annual Safety Report (ASR) for 2023.

1. INTRODUCTION

1.1 The Safety Reporting Program Working Group has received almost all information from data providers, with a draft ASR 2023 nearing completion. The report will be delivered on schedule, on or before October 28, 2023, due to a contingency allowance that is built into the schedule. This allows for delays in receipt of source data used to populate the report and any other unforeseen issues.

2. DISCUSSION

2.1 The APAC ASR for 2023 will retain a similar format and content to previous reports, however, the SRP WG Co-Chairs are conscious that the ASR has expanded in size in recent years. In the interest of presenting the data and information in as an efficient manner as possible, a review of the exiting document has been conducted. Whilst core information remains unchanged, some content has been rationalised to support interpretation.

2.2 The 2024 ASR is scheduled to follow a similar timeline to that of the 2023 report with delivery expected on or before October 11, 2024.

2.3 Top-line results from the 2023 ASR will be presented at the SRP Working Group breakout session at APRAST/20.

Key dates for the delivery of the 2024 Annual Safety Report include:
