Eleventh Meeting of the Common Aeronautical Virtual Private Network Operations Group (CRV OG/11)

Bangkok, Thailand, 01-03 February 2023

- Agenda Item 4: CRV OG Reference documents
– CRV Implementation Plan

AERONAUTICAL TELECOMMUNICATION NETWORK (ATN) DOCUMENTATION TREE UPDATE

(Presented by Federal Aviation Administration/USA)

SUMMARY

This paper presents an update of the Asia/Pacific regional ATN Documentation Tree. The ATN Documentation Tree depicts the relationship between telecommunication documents. This documentation tree has not been updated since ATN/OSI was implemented.

1. INTRODUCTION

- 1.1 The original documentation tree was developed by Aeronautical Telecommunication Network Implementation Coordination Group (ATNICG) to show relationship between related ATN documents
- 1.2 ATN Documentation Tree was developed for ATN/OSI environment
- 1.3 ATN/OSI has been replaced by ATN/IPS
- 1.4 CRV is now supported ATN/IPS only

2. DISCUSSION

- 2.1 Attached please find the chart that depicts the updated ATN Documentation Tree
- 2.2 Meeting is requested to review the information shown in the chart and provide update or modification of the chart format to ICAO secretariat during the meeting
- 2.3 The ATN Documentation Tree has been updated to show recently implemented IPS router and ATN/IPS related documentation.
- 2.4 The meeting is requested to identify documents that should be updated/removed/added to the ATN Documentation Tree
- 2.5 The updated information will be reviewed and update again at the ACSICG meeting before forwarding to CNS SG to finalize and publish

3. ACTION BY THE MEETING

- 3.1 The meeting is invited to:
- a) note the information contained in this paper; and
 - b) discuss any relevant matter as appropriate
