

APCAC Feasibility Study – Part II

Regional Cooperation Mechanisms Task Force – Meeting 11

Bangkok, Thailand

26 – 27 July 2023

What did Part II set out to achieve?

- To identify challenges the region is facing, and establish any problems.
- To identify any opportunities the region can take advantage of if the challenges are addressed.
- To provide a range of solutions for the region to consider to address these challenges.

Challenges and opportunities

- This paper presents four overarching challenges relating to:
 - The rapidly growing aviation sector within the region.
 - The environmental impacts of aviation.
 - Building capacity and capability.
 - Enabling and improving cooperation and collaboration in a highly diverse region.
- A range of sub-issues sit underneath these challenges.
- If these challenges are addressed, there are beneficial opportunities that the region can take advantage of.

Options to address challenges

**Retain the status
quo**

**Introduce new
mechanisms**

**Establish a full AP
CAC**

**Enhance existing
mechanisms**

**Create a sub-
regional CAC(s)**
