

INTERNATIONAL CIVIL AVIATION ORGANIZATION
ASIA AND PACIFIC OFFICEENHANCED WAKE TURBULENCE SEPARATION IMPLEMENTATION/REGULATION
WEBINAR FOR THE APAC REGION

(Video Teleconference, 27 June 2023)

PROGRAMME OUTLINE

1. INTRODUCTION

The webinar is intended to share experiences and lessons learned in implementing enhanced wake turbulence separation to optimize air space capacity and/or airport capacity. This event is succeeded by the first *RECAT Implementation Webinar* which was conducted in 2022, and one of the follow-up actions of ATM/SG/10.

2. INTRODUCTION BY ICAO

This session will provide an introduction to the latest developments at ICAO from the following aspects:

- ICAO regulatory framework associated with Wake Turbulence Re-categorization (RECAT);
- The development background and history of the RECAT; and
- Documents and Manuals developed by ICAO.

3. PRESENTATION BY STATES

This session will invite key stakeholders from government regulators, air navigation service providers and operators to exchange best practices, lessons learned and respective challenges from the following aspects:

- **Development of national regulatory framework.** Including the relationship between the regulator, ANSP and the airspace user;
- **Approval of operation.** Including training for air traffic controllers and pilots was being conducted; and
- **Operational experience and benefits.** Including problems encountered during the implementation, which were being analysed and addressed.

Presentations must:

- not exceed 20 minutes for each one of the topics;
- be written in English;
- be provided as a readable/writable MS-Word/PowerPoint document; and
- be received by ICAO at apac-rso@icao.int with copies to zxuu@icao.int, hykwon@icao.int not later than 12 June 2023.

4. Q & A SESSIONS
