Subject: Webinar on Civil-Military Cooperation in ATM

(Video Teleconference, 20-21 November 2024)

Actions required:

- 1) To coordinate with military counterparts;
- 2) To submit Presentation(s) by 06 November 2024; and
- 3) To complete the registration by 15 November 2024

Dear Sir/Madam,

I am pleased to invite your State/Organization to participate in a **Webinar on Civil-Military Cooperation in ATM** for the Asia Pacific (APAC) Region via video teleconference from 20 to 21 November 2024.

Aviation contributes significantly to the State's economy and requires a stable and secure environment. Practical civil-military cooperation in air traffic management (ATM) will allow civil aviation to flourish and military aviation to perform their required missions. Given that the Asia/Pacific region is expecting rapid growth in the coming years, civil-military cooperation remains one of the highest priority items in the Asia/Pacific region, as evidenced in the APAC Seamless ANS Plan.

Given the crucial role of Civil-Military Cooperation in ATM, ICAO APAC Regional Sub-Office is pleased to announce a 2-day Webinar. This event is of significant importance as it aims to:

- Assist the States with updated information and provide practical guidance on the ICAO documents, including Doc 10088, related to civil-military cooperation in ATM.
- Share latest progress, experiences, challenges and solutions on the implementation of civil-military cooperation in ATM and Flexible Use of Airspace (FUA) from the States in the region.
- Case study on how to enhance civil-military cooperation in ATM by key stakeholders and International Organizations with a particular focus on the constructing and improving the 3-level airspace management framework and operations with FUA concept.

The webinar's target audience is personnel from both civil and military working in the area of civil-military cooperation in ATM, including but not limited to civil aviation regulators, ANSPs, airspace designers and managers, air traffic controllers, airline operators, officers of military authority, military air traffic controllers and relevant international organizations, etc.

...2/

States are encouraged to coordinate with their military counterparts to participate in the webinar and share the best practices and lessons learned about the implementing civil-military cooperation in ATM and FUA from both civil and military perspectives. In addition, the webinar will have interactive Q&A sessions to facilitate participants' understanding of the related subjects. If you are interested in contributing to the workshop as a speaker, please contact Ms. ZHANG Ying (yingzhang@icao.int) of ICAO APAC RSO for more information.

To make the webinar productive and effective, it is recommended that States/International Organizations should submit presentations on the above-mentioned subjects by 6 November 2024 via email to APAC-RSO@icao.int with a copy to yingzhang@icao.int.

Enclosed herewith are the Programme Outlines of the Webinar (Attachment A) and Webinar Bulletin (Attachment B). I request that you kindly complete online registration(s) of the delegate(s) from your State/Organization who will attend the webinar **by 15 November 2024**. The registration link is provided on the meeting webpage, available through the ICAO Regional Office website at icao.int/APAC/Meetings/Pages/2024-CMAC-FUA-Webinar.aspx.

Please accept, Sir/Madam, the assurances of my highest consideration.

Yours sincerely,

Tao Ma
Regional Director
