

Japan's support for APAC region

Civil Aviation Bureau
January 2024

- JICA ODA (in 30 years)
 - More than 1,100 Billion Yen to 20 APAC States
 - Various Area: Airport, Air Navigation Services, Safety, Accident Investigation, Search and Rescue)
 - Various tool: Grant, Loan, Project, Capacity Building Training
- ASEAN Japan Transport Partnership
 - Security
 - Air Navigation Services
 - Airport
- ICAO
 - Contribution to AVSEC Fund (more than 100,000 CAD/year) - not earmarked for APAC
 - Seminar, Symposium
 - Various Levels (High Level - Expert Level)
 - Various area (Environment, Legal etc.)
 - ACT-CORSIA
 - Afghanistan, Bangladesh, Bhutan, Cambodia, Malaysia, Myanmar
 - ACT-SAF

(General)

- Considering the enhancement of implementation support activities
 - PSIDs support as a pillar to strengthen implementation support to the region.
- Coordination is required with budget authorities and other relevant organizations
- We will consider possible support if we hear specific needs/requests.

(Financial support)

- Continue voluntary contributions to the AVSEC Fund
 - Considering an increase and earmark for the Asia-Pacific region, particularly for the PSIDs

(In-kind support)

- Consider dispatching experts to seminars, symposia, etc.
- Consider dispatching experts in various fields to the States in need
- ACT-CORSIA, ACT-SAF

- ODA projects through JICA
 - Grant Aid (VOR/DME) to Fiji (under final coordination) (2024?)
 - The estimation details are still under review by JICA.
 - A field visit by JICA was conducted in January 2024.
 - The grant includes a soft component of human resource development for flight procedure design.
 - Training Program (probably continued: if interested, please consider your participation positively)
 - Air Navigation Services
 - Aviation Security
 - Airport Construction
 - Continue support through JICA
 - Several projects under consideration
(e.g. Marshall Islands, Tonga, Fiji, Lao, Nepal)

- Support to PSIDs in Air Navigation area in 2024 (currently under coordination with ICAO)
 - Plan 1: Invitation to Japan (-20 people)
 - Seminars on ATM/CNS/ATFM/flight procedure design/GBAS, etc.
 - Visits to ATM Center, Haneda, NPAC (Network Performance Assessment Center), ENRI (Electronic Navigation Research Institute), etc.
 - Plan 2: Project Finding Survey (in Fiji)
 - Seminars on ATM/CNS/ATFM/flight procedure design/GBAS etc.
 - Dispatch experts from JCAB if necessary.
 - Both Plans 1 and 2 would like to target not only Fiji but also neighboring countries if needed.

- Japan will try to enhance implementation support activities (subject to the coordination with budget authority and other relevant organizations)
 - Discussion started with ICAO (HQs, APAC RO)
 - Discussion started with JTSC, Aeronautical Safety College etc...
- For short/mid-term future
 - JICA training program (probably continued)
 - Projects in PSIDs in 2024
 - Several other JICA projects under coordination
- Let us know the needs for our support
 - Sending experts
 - Any specific assistance areato further consider what we can provide.....
