

International Civil Aviation Organization

**THE ELEVENTH MEETING OF PERFORMANCE BASED
NAVIGATION IMPLEMENTATION COORDINATION GROUP
(PBNICG/11)**

Bangkok, 27 – 29 March 2024

Agenda Item 4: States' PBN Implementation Progress and the challenges faced by the States and lessons learnt

PBN IMPLEMENTATION PROGRESS IN INDONESIA
(Presented by Indonesia)

SUMMARY

This paper presents the update on the progress of Indonesia's PBN implementation and the updated PBN implementation plan, challenges and lesson learnt.

1. INTRODUCTION

- 1.1 Indonesia has presented the state PBN implementation progress and status at PBNICG/10 meeting on 2023. Since then, Indonesia has updated and make some adjustments to the plan to accommodate the development of airports.
- 1.2 Indonesia is focusing in increasing the safety and smooth operation of aircraft throughout the country by implementing PBN flight procedure in some of the airports.

2. DISCUSSION

PBN Implementation status

- 2.1 Since reported in PBNICG/10 on 2023, the summary of airports that already implement fully/partly PBN flight procedures are as follows:
 - a. International Airport with PBN IAP: 32 from total 32 airports (2 airports with RNP AR).
 - b. International Airport with PBN SID/STAR: 25 from total 32 airports.
 - c. Domestic Airport with PBN IAP: 90 from total 119 airports.
 - d. Domestic Airport with PBN SID/STAR: 15 from total 119 airports.The list of the airports are attached on this paper.

Figure 1. PBN implementation progress in Indonesia

- 2.2 By collaboration with DGAC France, Airbus and NavBlue, Indonesia has designed the RNP AR procedure for Sultan Babullah Airport in Ternate. The procedure is targeted to be published in Q2 2024.
- 2.3 Indonesia also have collaboration with EASA to design the RNP APCH procedure for 4 Domestic Airports and 1 remote airport targeted to be published in Q4 2024 as follows:
- Sultan Muhammad Salahuddin Airport in Bima,
 - Kasiguncu Airport in Poso,
 - Morowali Airport in Morowali,
 - Frans Sales Lega Airport in Ruteng,
 - Wunopito Airport Lewoleba (remote airport).
- 2.4 As addition with data above, there are 15 remote airports in Indonesia with PBN procedures.
- 2.5 In terms of the enroute, Indonesia has added 6 PBN ATS routes since reported in PBNICG/10 as follows:

ATS Route	Routes	Publication	Navspec
T9	Jakarta-Manado	7 Sep 2023	RNAV 2
T11	Semarang-Balikpapan	7 Sep 2023	RNAV 2
T13	Surabaya - Banjarmasin	7 Sep 2023	RNAV 2
T14	Manado - Jakarta	7 Sep 2023	RNAV 2
T26	Banjarmasin - Semarang	7 Sep 2023	RNAV 2
T25	Jakarta – Batam /Tj Pinang	11 Jan 2024	RNAV 2

The list of all the PBN enroute are attached on this paper.

- 2.6 DGCA Indonesia continues to encourage Indonesia operators certificate operating in conventional route to carry out PBN operation certification. By January 2024, there are 95% of aircraft with PBN capability that have complied the PBN certification and operation approval in Indonesia.

- 2.7 Due to the capabilities of the aircraft and routes where they flown, not all aircraft in Indonesia carry out PBN operations.
- 2.8 The PBN certification and operation approval are given based on the navigation specification RNP APCH, RNP AR APCH, RNAV 1, RNP 1, RNAV 10, RNP 4, RNP2, RNAV 5, and RNAV 2 in accordance with applicable regulation.

Figure 2. Number of PBN operational approved aircrafts based on the navigation specification

- 2.9 The Indonesia National PBN Stakeholders forum is actively monitoring the implementation of PBN in Indonesia and evaluating the PBN implementation plan. The member of Indonesia National PBN Stakeholders forum consist of DGCA, Airnav Indonesia and Airlines.

New PBN Implementation plan until 2024

- 2.10 The Indonesia PBN implementation plan until 2024 are as follows:

	Airport / Route	Status	Target Year
International Airport IAP	Hasanuddin, Makassar (RWY 13)	Validation process	2024
	Supadio, Pontianak (Rwy 33)	Validation process	2024
International Airport SID/STAR	Supadio, Pontianak	Validation process	2024

	Sentani, Jayapura	Design process	2024
	Frans Kaisiepo, Biak	Design process	2024
	Siborong borong, Silangit	Design process	2024
	Juwata, Tarakan	Design process	2024
Domestic Airport RNP AR	Sultan Babullah, Ternate	Validation process	2024
Domestic Airport SID/STAR	Singkawang	Validation process	2024
	Ibukota Nusantara	Design process	2024
Domestic Airport RNP APCH	Singkawang	Validation process	2024
	Ibukota Nusantara	Design process	2024
	Pototano	Design process	2024
	Bolaang Mongondow	Design process	2024
	Mandailing Natal	Design process	2024
	Pohowatu	Design process	2024

Figure 3. PBN Domestic Enroute RNAV 2

Indonesia Transition Plan for RNP APCH Chart Identification from RNAV to RNP

- 2.11 To support the transition plan for RNP APCH Chart Identification from RNAV to RNP, Indonesia has been renaming/transitioning a number of charts.
- 2.12 By 11 Januari 2024, the number of charts that have been renamed/transitioned from RNAV to RNP in Indonesia are 76 charts from total 76 charts are published (100%).

Challenges and Lesson Learnt

- 2.13 Throughout the PBN Implementation, Indonesia has faced some challenges as follow:
- a. The strategy to increase the effectiveness of utilization of a PBN route by considering the population of PBN capable aircraft in an airspace;
 - b. The handling of mixed between conventional and PBN routes on an airspace;
 - c. The crossing between the regional routes and domestic RNAV2 routes;
 - d. The strategy to design a PBN route that is shorter and more effective than a conventional route
- 2.14 The lesson learnt in facing those challenges to ensure the effectiveness of PBN Implementation as follow:
- a. To conduct an effective PBN Training for ATC Personnel
 - b. In designing the Domestic PBN enroute, Indonesia learn that by dividing the phase based on the traffic flow and operational needs would increase the effectiveness of the implementation and timeline.

3. ACTION REQUIRED BY THE MEETING

- 3.1 The meeting is invited to:
- a) Update the status of Regional Transition Plan RNAV to RNP Chart Identification Change of Indonesia;
 - b) Note the information contained in this paper; and
 - c) Discuss any relevant matters as appropriate.
