

CANSO Asia Pacific Conference 2025
8 December 2025
Seamless APAC Airspace – Aviation and Meteorology Integration

The conference features three sessions as follows:

- a. “Navigating the Storm: The Science and Challenges of Weather”. This session will set the stage with briefings on the challenges and principles behind weather phenomena and forecasting.
- b. “Bridging the Skies: Operational Synergy Through Integration and Coordination”. This session will outline the current efforts and good practices on how meteorological agencies cooperate with ANSPs and other meteorological agencies
- c. “Next Steps to Build Resilience: Strengthening the Aviation and Meteorology Ecosystem”. This session will be a panel discussion on the next steps to foster a more resilient and coordinated aviation ecosystem which can collectively manage adverse weather.

Participation in the CANSO Asia Pacific Conference 2025 is open to Directors-General of Civil Aviation, CEOs or Chiefs of ANSPs of APAC States and their delegates of CANSO ANSP members and their associated meteorological service providers. CANSO members will be provided more details separately, and other interested people can make enquiries at Events@canso.org.
