ICAO APAC Bangkok Thailand

The Civil Aviation Authority of Thailand (CAAT)

Website: <https://www.caat.or.th/en>
Email: saraban@caat.or.th
inter_focalpoint@caat.or.th

The Civil Aviation Authority of Thailand or CAAT was established on October the 1st 2015 as a state agency and regulatory body for Civil Aviation in Thailand. CAAT has the powers and duties of an independent authority as prescribed by law. CAAT was established with the key missions of reforming the regulatory safety and security oversight system, introducing more ICAO standard regulations, recruiting qualified technical staff, developing provisions and training, and establishing technical guidance materials and tools for both technical personnel and operators.

As the country's Civil Aviation Regulator, we ensure safe and secure operations by adopting international standards and implementing them through our regulatory mechanism. This consists of rulemaking, licensing and certification, compliance monitoring, and enforcement. CAAT is committed to meeting global standards, ensuring the safety, security, and efficiency of Thailand's civil aviation industry. We strive to be a leading authority in aviation, fostering growth and innovation while upholding the highest regulatory standards for a safer sky.

Aeronautical Radio of Thailand Ltd. (AEROTHAI)

Website: <https://www.aerothai.co.th>

Aeronautical Radio of Thailand Ltd. (AEROTHAI) is a state enterprise under the Ministry of Transport.

Role and Responsibilities

- Air Traffic Management comprising Air traffic Service (ATS), Airspace Management (ASM), and Air Traffic Flow Management (ATFM) within the Bangkok Flight Information Region
- Aeronautical Communications, Navigation, and Surveillance (CNS) System/Services
- Instrument Flight Procedure Design (IFPD)

Additionally, AEROTHAI is designated as Thailand's International Notice to Airmen (NOTAM) Office (NOF) in support of Aeronautical Information Service Headquarters. Moreover, AEROTHAI provides other related aeronautical services to airline operators, and other work assigned by the government.

Safety

AEROTHAI considers service safety as its first priority. Safety is our strength and has always been a crucial part of our service delivery. The responsibility of service safety is upheld by all AEROTHAI staff and the Management at all levels. Our approach to safety is proactive and systematic whilst considering the practicality of risk mitigations.
