

**GASP WEBINAR 2025**

*21 October 2025, Tuesday 8:00 -11:00 (Bangkok-time)*

*Duration: 3 hrs*

**Title of the Webinar: “2026-2028 Global Aviation Safety Plan: ICAO’s Global Safety Strategy & What it Means for the National Aviation Safety Plan”**

This webinar is intended to develop competencies for persons involved in the development/revision and implementation of a national aviation safety plan (NASP), in alignment with the ICAO Global Aviation Safety Plan (GASP) and the regional aviation safety plan (RASP). This webinar introduces the 2026-2028 edition of Global Aviation Safety Plan (GASP), which contains ICAO’s strategy for improving aviation safety. It will enable participants to understand the role of the GASP in the development (or revision) and implementation of a NASP. The webinar will address the global safety issues, presented in the latest GASP, including the global high-risk categories of occurrence (G-HRCs), that States should consider as part of their NASP. The webinar will also introduce updated guidance materials to support NASP development and implementation, in line with the GASP, including the use of the global aviation safety roadmap, the standardized frameworks and the GASP indicator forms.

**Speaker:** Mr. Martin Maurino, M. Eng  
Technical Officer, Global Aviation Safety  
ICAO Headquarters
