LIST OF EXHIBITORS

Quintus AGL Maintenance Service Ltd.

Quintus AGL Maintenance Service Ltd is an affiliate of Quintus Advanced Products, the sole distributor of ADB Safegate, a leading manufacturer of Airfield Ground Lighting (AGL) systems, in Thailand for over 35 years. Quintus Advanced Products is responsible for the design, supply, installation, maintenance, and training of AGL systems, holding approximately 85% of the Thai market share. The company also supports ADB Safegate's operations across several countries, including Sri Lanka, Brunei, Laos, Cambodia, Myanmar, Mongolia, and Papua New Guinea.

With the continuous growth of the aviation industry and rapid technological innovation, Quintus AGL Maintenance Service Ltd was established to enhance and manage maintenance services. The company is driving the digital transformation of airport AGL maintenance — transitioning from traditional paper-based checklists to digital systems in full compliance with ICAO Annex 14 and Annex 15.

As the aviation industry embraces digitalization, automation, and data integration across the entire value chain, Quintus AGL Maintenance Service Ltd is at the forefront of developing and implementing the AGL Data Center project for the Asia-Pacific region, supporting smarter, safer, and more efficient airfield operations.

MD ONBOARD LLC

In the aviation industry, every second is critical. Traditional communication delays often hinder timely medical advice, leaving crews to make critical decisions without expert guidance—putting operations, reputations, and lives at risk. Recognizing the need for a better solution, MD ONBOARD has transformed this process with our state-of-the-art app and communication technology, seamlessly connecting preflight gate screening and inflight emergencies with world-class medical and aviation security specialists. Powered by Northwell Health's leading healthcare infrastructure, MD ONBOARD sets a new standard for remote medical advisory services featuring industry-first two-way video, chat and medically certified live translations capabilities enhancing diagnostic accuracy and response times.

MD ONBOARD was founded by aviation professionals and medical experts to address the industry's unique challenges. Our comprehensive services empower airlines to manage medical and security risks, make informed decisions, and provide unparalleled care—ensuring their operations run smoothly, and passengers are in good hands.

At MD ONBOARD, we strive to minimize disruptions, ensure compliance, and provide crew with the confidence that expert medical advice is just a click away. MD ONBOARD is the solution you've been waiting for, delivering the exceptional care you and your passengers deserve.
