TFP Documentation

TFP Documents

- Manual on Aviation Information Security
- Aviation Common Certificate Policy
- Manual on Trust Frameworks

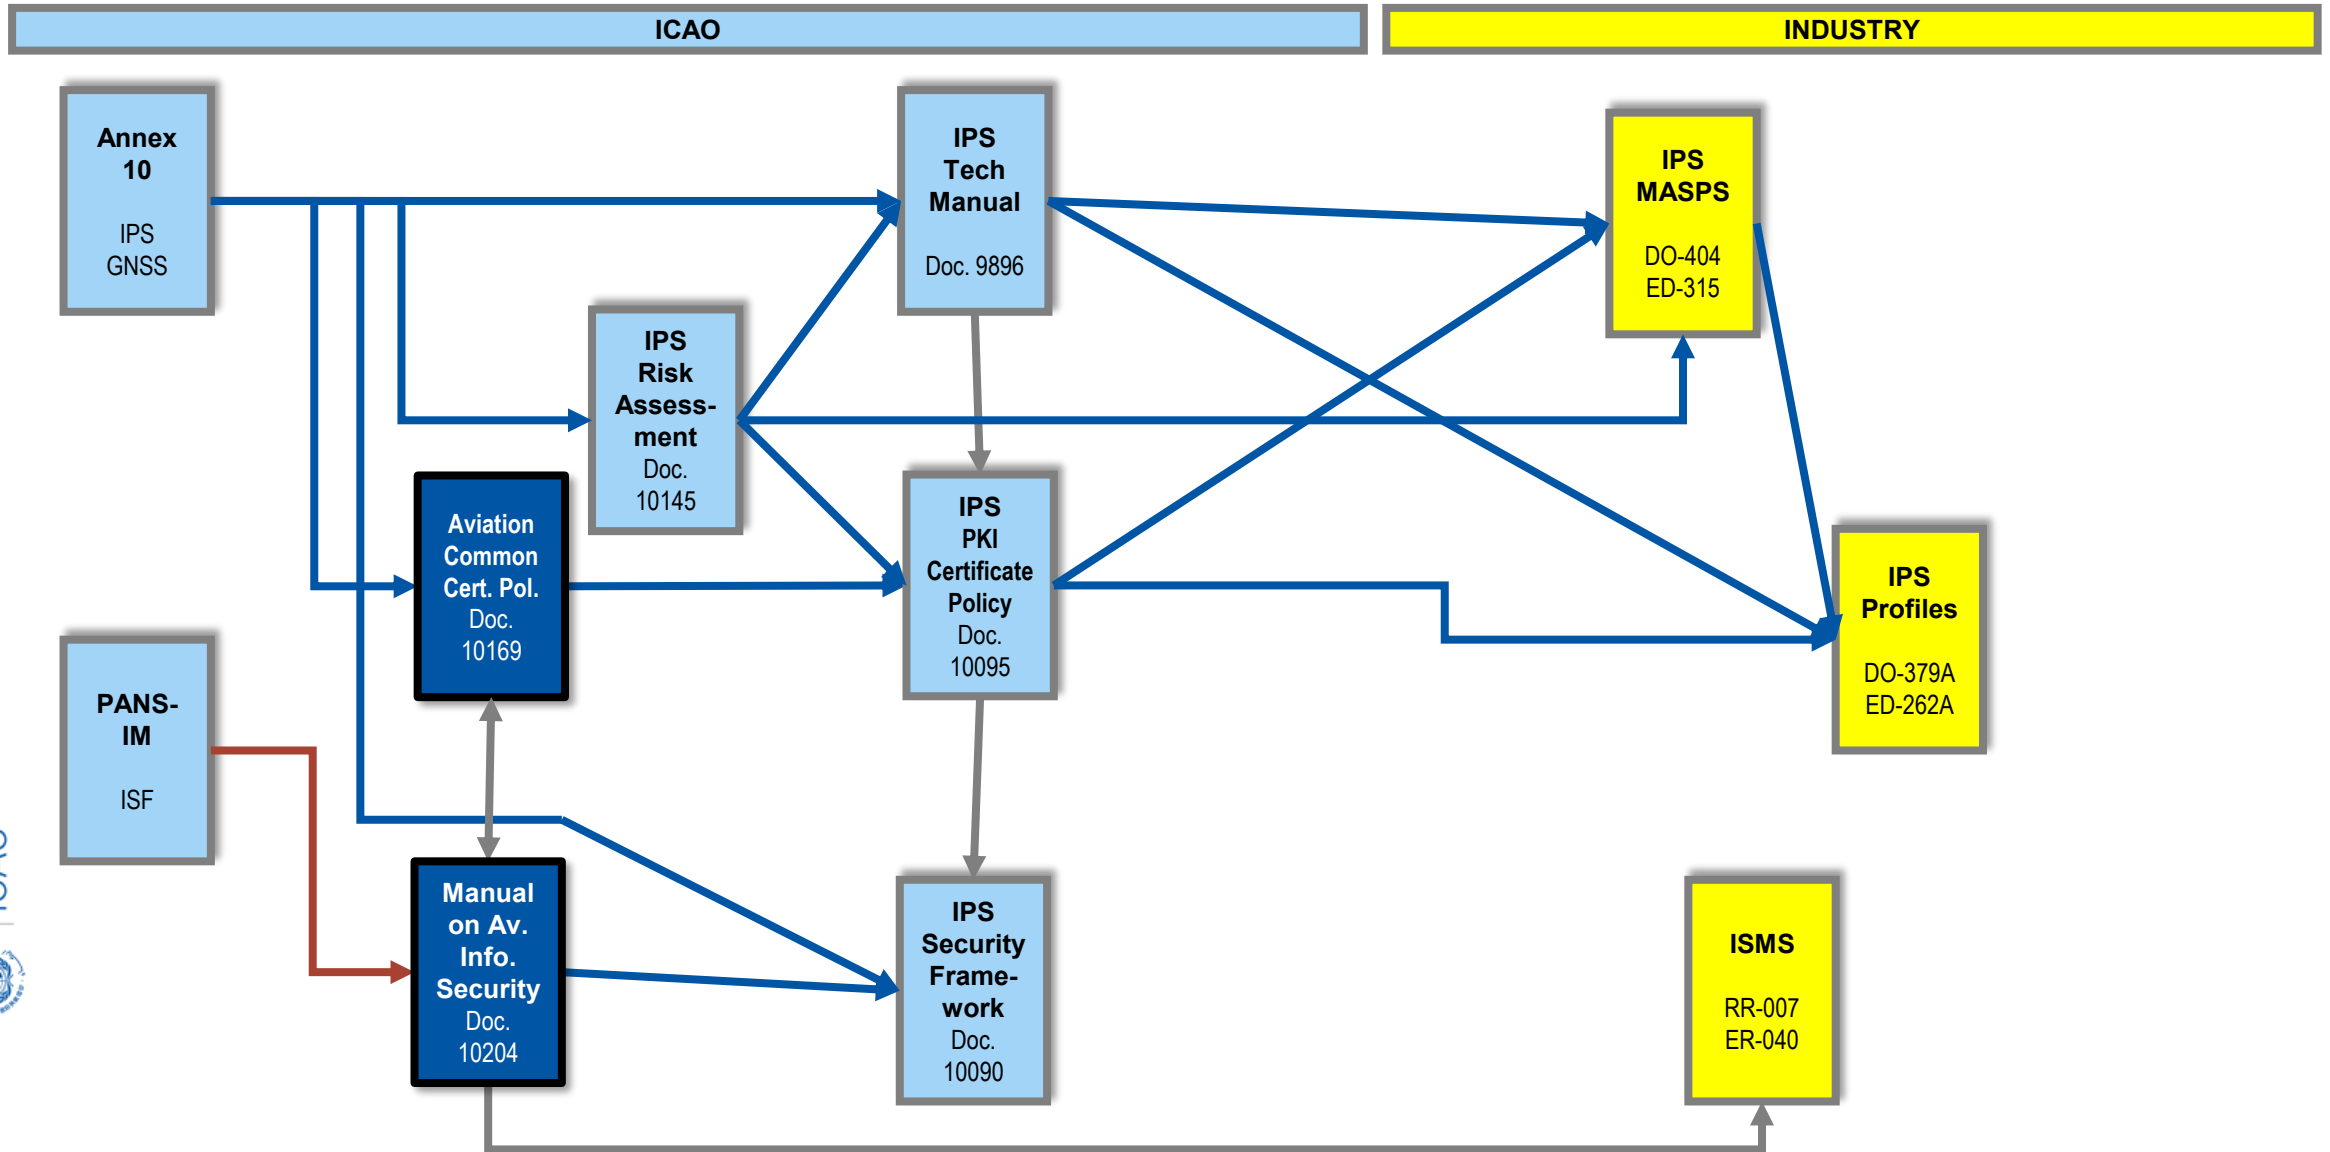

Published Documents

- Doc 10169 – Aviation Common Certificate Policy (ACCP)
 - Provides what should be done when setting up a PKI environment
 - Must be adapted to individual cases and implementations
- Doc 10204 – Manual on Aviation Information Security (MAIS)
 - Provides guidance on the protection of information
 - Provides a set of tiered objectives selected based on risk assessment

Manual on Trust Frameworks (MTF)

- Describes what a TFI is and its fundamental components
- Provides the general “recipe” for TFI formation and lifecycle management
- Provides information on applying the ACCP and MAIS in specific contexts
- Gives information on assessment means for TFIs (to be supplemented by further materials)
- Provides example use cases for TFI creation

Document Map

Conclusions

- Manual on Trust Frameworks provides the “how to” for the ACCP and the MAIS
- Each TFI is specific to its environment, circumstances and participants
 - ICAO can only provide what is common
- Documents have been coordinated across multiple stakeholders for consistency

Thank You
