## Mastermark Pte. Ltd.

For over forty years, Mastermark has led in aerodrome environmental solutions. As Singapore's most trusted wildlife and bird management specialist, we balance urban development with nature. Our expertise spans all aspects of airport wildlife hazard management, from training and consultancy to ground operations. Backed by a dedicated team of biologists, our science-driven methodology leverages the latest technology to deliver effective, lasting solutions. Serving airports across Southeast Asia, we proudly act as Changi Airport Group's principal wildlife consultant, harmonising wildlife and urban environments across the region.
