Fourteenth Meeting of the Asia Pacific Accident Investigation Group (APAC-AIG/14)

(Bangkok, Thailand, 7-9 October 2026)

Agenda Item 6: Updates from the Task Forces

UPDATE ON WORK BY TASK FORCE 6 – REGIONAL CALENDAR OF EVENTS

(Presented by Australia)

SUMMARY

This paper presented by Task Force 6 provides an update on the implementation of the calendar of training and events to APAC AIG members.

1. INTRODUCTION

1.1 During the APAC-AIG/11 Meeting, a Task Force was formed comprising of an Expert Group (EG) of volunteers to improve the communication of activities, meetings, regional workshops/ courses etc via a one-stop calendar of regional events.

1.2 This paper updates the APAC AIG of the progress of this task.

2. DISCUSSION

2.1 Many APAC Regional States/Administrations hold events, workshops and courses that would be beneficial for other States to participate in to improve the accident investigation capability in the Region.

2.2 Collecting and publishing a calendar of all the events scheduled for the Region would improve communication and allow States to be aware of potential training opportunities.

2.3 The Expert Group of volunteers from Australia held Meetings and provided an update at the APAC-AIG Meeting in 2024 and 2025 to update on the progress of this work. Following this it was determined that:

- a) Every six months, States/ Administrations can provide the details of any upcoming events, workshops and courses that are open to external participation. Information to be provided will include:
Date of event, topic and type of event (training/ workshop/ course), mode of delivery (in-person/virtual), contact details and any associated costs.
- b) Information collected will then be collated into an annual 12 month rolling calendar and be made available to APAC AIG members.
- c) The APAC regional office will also contribute other ICAO events to the calendar.

- 2.4 On 21 July 2026, ICAO APAC Regional Office released State Letter Ref: T 6/8.3.1 – AP089/26 (FS) noting the publication of the APAC-AIG Regional Training and Events Calendar and inviting submissions of upcoming AIG-related training or events to be sent to the ICAO APAC Office for inclusion in future calendar updates.

3. ACTION BY THE MEETING

- 3.1 The Meeting is invited to commit and contribute to providing their shared AIG training activities to the ICAO APAC Regional Office AIG calendar of events every six months.

- 3.2 The Expert Group recommends that Task Force 6 be finalised as the APAC-AIG Regional Training and Events Calendar has been published and instructions have been provided on submitting on-going updates.

- 3.3 This Expert Group also recommends that Task Force 1 use their training sessions as an opportunity to offer a timely reminder to participants to provide ICAO APAC Regional Office with updates to the training and events calendar.
