VariFlight, founded in 2005, is a leading provider of aviation travel services and digital solutions for the civil aviation industry, with an expanding international footprint across mainland China, Hong Kong, Singapore, and Canada. The company serves over 300 million passengers and more than 1,000 industry clients, supported by a comprehensive global flight data network covering worldwide flight dynamics.

Its business portfolio includes the **VariFlight app** for passenger services, advanced aviation data solutions, and digital platforms for airports, airlines, and air traffic management. VariFlight places strong emphasis on **Airport Collaborative Decision Making (A-CDM)** and is actively progressing toward **Total Airport Management (TAM)**, driving enhanced operational efficiency and improved cross-stakeholder coordination.

In parallel, VariFlight is advancing the development of the **Trusted Industry Data Space for Civil Aviation (TIDS-CA)**, enabling secure and trusted data sharing and circulation across multiple stakeholders, and supporting the industry's transition toward more intelligent and refined aviation operations.
