Bangkok, Thailand, 3 – 7 August 2026

Agenda Item 8: Any Other Business

AAM 2026 – SECOND ADVANCED AIR MOBILITY SYMPOSIUM

(Presented by the Secretariat)

SUMMARY

This paper provides information on the Second Advanced Air Mobility Symposium (AAM 2026), to be held in Bangkok, Thailand, from 1 to 3 December 2026. Members are invited to note the information and consider participating in the symposium, as appropriate.

1. INTRODUCTION

1.1 The International Civil Aviation Organization (ICAO) will convene the Second Advanced Air Mobility Symposium (AAM 2026) from 1 to 3 December 2026 at the IMPACT Exhibition and Convention Center, Bangkok, Thailand. The symposium will be held under the theme "From Vision to Implementation: Enabling the AAM Ecosystem."

1.2 Building on the outcomes of the first ICAO AAM Symposium held in 2024, the event aims to identify practical pathways towards the safe, scalable and globally interoperable implementation of Advanced Air Mobility (AAM). It will review lessons learned from early unmanned aircraft systems (UAS) and electric vertical take-off and landing (eVTOL) operations and assess progress made following the ICAO AAM 2024 Call to Action.

2. DISCUSSION

2.1 The symposium will bring together regulators, international organizations, industry representatives, academia and other stakeholders to discuss policy, regulatory and operational aspects of AAM implementation. Key topics include:

- a) integration of AAM into the existing aviation system;
- b) automation and autonomy;
- c) workforce development;
- d) infrastructure and ecosystem readiness; and
- e) global harmonization and international cooperation.

2.2 The symposium is hosted by the Civil Aviation Authority of Thailand (CAAT) with the support of the Government of Thailand. Thailand's selection as the host reflects its active contribution to the advancement of Advanced Air Mobility (AAM) and its commitment to supporting ICAO's efforts towards the safe, secure and sustainable integration of new entrants into the aviation system.

2.3 Through hosting AAM 2026, Thailand and CAAT are expected to facilitate collaboration among States, international organizations, industry and academia, promote the exchange of implementation experiences and best practices, and contribute to the development of globally harmonized approaches for AAM implementation.

2.4 Additional information, including registration details and the programme, is available on the [ICAO event website](#).

3. ACTION BY THE MEETING

3.1 The meeting is invited to:

- a) note the information contained in this paper; and
- b) encourage interested States and organizations to participate in AAM 2026, as appropriate.
