**THE FIFTEENTH MEETING OF THE COMMON
AERONAUTICAL VIRTUAL PRIVATE
NETWORK OPERATIONS GROUP (CRV OG/15)**

Mumbai, India, 15-19 June 2026

Agenda Item 3: CRV OG Reference documents
– New Zealand hosted CRV Portal

NEW ZEALAND HOSTED CRV PORTAL

(Presented by New Zealand)

SUMMARY

This paper presents and update of the content in the New Zealand hosted CRV portal.

1. INTRODUCTION

1.1 The New Zealand hosted [CRV Portal](#) provides information such as the Operations Manual, Transition Plan and Common Package for all CRV Users. Having this portal provides the flexibility of updating the various documents and providing access to these under the control of the CRV Operations Group.

1.2 The portal is subject to Microsoft and Airways New Zealand policy changes, including multifactor authentication requirements.

2. DISCUSSION

2.1 The contents of the portal remain reasonably stable, with the main updates being to the Operations Manual, Common Package items and the Implementation Progress update from PCCWG.

2.2 The documents folder is the key location for the CRV Documentation, as seen in the following image.

 Name ▾	Modified ▾
 Common Package	January 12, 2022
 Dial Plan	May 21, 2021
 General	May 23, 2023
 Governance	May 9, 2024
 Implementation Plan	May 21, 2021
 Inter Network connections	May 21, 2021
 Operations Manual	May 21, 2021
 Overview Drawing	April 28, 2022
 Reporting	May 21, 2021
 Service Provider or Consumer Requests	May 21, 2021
 APAC CRV Notebook	May 21, 2021
 AsiaPac ATN Infrastructure Routing Plan 10...	March 12

- **Common Package**
 The collection of the documentation required to implement and manage a CRV connection for CRV Users

 Organised by document function of Legal, Technical and Commercial, by document type of Strategy, Design, Transition and Operation and by owner of ICAO, CRV OG and PCCW.

 A Change Control document records any changes. Documents are moved between the Current, Draft and Previous version folders.
- **Dial Plan**
 The current and previous versions of the regional dial plan.
- **General**
 Standard Microsoft folder with no content.
- **Governance**
 Collection of documents relating to the governance discussion.
- **Implementation Plan**

The current and previous versions of this plan. Also contained in the current version folder is the Risk Register and implementation status table. PCCWGs regular updates on progress can be found here.

- **Inter Network Connections**
A collection of documents pertaining to the discussion on inter-regional connections.
- **Operations Manual**
Current, Draft and Previous versions of this manual.
- **Overview Drawing**
Current and Previous versions of this sensitive diagram of the wider network. This diagram must not be downloaded or shared.
- **Reporting**
A new folder with the intention of capturing regular PCCWG reports.
- **Service Provider or Consumer Requests**
A folder to capture those providers being sponsored onto the network.

2.3 Two subsites have been created. One is for the creation of a history and timeline of the CRV. This is currently being captured in another section of the CRV portal. The second is for collecting the various action items from CRV and Ad Hoc meetings so they are always visible.

2.4 Other items of interest are the collection of Ad Hoc meeting agendas, presentations and minutes. A page contains the details from the Proof of Concept and another the Terms of Reference.

2.5 Access to the portal is limited to three per State for the following users:

- a. National CRV Point of Contact
- b. Nominated deputy to the National CRV Point of Contact
- c. Person responsible for updating the AsiaPac Telecommunication Infrastructure Routing Plan.

The AsiaPac Telecommunication Infrastructure Routing Plan will need to be moved to allow for better access control to the portal.

2.6 There is a TEAMS function associated with the portal that is currently unused. Initially, there were issues with synchronisation between the SharePoint site and the TEAMS function. This could provide the opportunity for channels, chat and posting.

2.7 The CRV portal has the opportunity to be used in a greater capacity to provide better visibility of what is occurring in the CRV OG. However, progressing this is dependent on the governance discussion.

3. ACTION BY THE MEETING

3.1 The meeting is invited to:

- a) note the information contained in this paper;

- b) discuss the functions and governance of portal along with proposed improvements; and
- c) discuss any relevant matter as appropriate
