

MNATS SWIM Planning and Implementation Update

ICAO APAC SWIM Training & Workshop 2026

Current Status

- SWIM implementation has not yet commenced.
- CRV connectivity is available but is not currently being operationally utilized.
- No SWIM governance framework, registry, or information services have been established.
- MNATS is participating in APAC SWIM activities to build awareness and readiness.
-

Existing Foundations

- Ongoing transition from AIS to AIM.
- CRV connectivity has been established.
- Further assessment is required to determine future support for AIXM and other SWIM-related standards, including associated implementation requirements and costs.

Thank
you
