Industry Cooperation for Effective Investigation Process

Christine Christyawati

Sr. Safety & Regulatory Affairs Principal

The Boeing Company

BOEING'S ROLE IN ICAO ANNEX 13 INVESTIGATION

What We Do:

- Assist the investigative authority
- Provide detailed knowledge of the airplane
- Provide technical expertise

What We Do NOT Do:

- Lead the investigation
- Release investigation information or communicate outside of the investigation without approval of the investigative authority
 - This include communication with:
 - Event operator, Other operators, and Suppliers
- Issue the formal accident report

BOEING TECHNICAL RESOURCES – INVESTIGATION SUPPORT

Lab and Test Capability:

- EQA (Equipment Quality Analysis) and Boeing Engineering & Technology Innovation (E&TI) Laboratories
- Noise Laboratory (CVR analysis)
- Flight Simulators
- Flight and Ground Test

Engineering Analysis:

- Recorded Data Analysis (FDR/QAR/EAFR/CPL/AHM/ADS-B)
- Data Visualization
- Root Cause Analysis
- Structural Analysis
- Atmospheric Physics (Wind and Weather)
