INFORMATION PAPER (IP/06)

ICAO ASIA AND PACIFIC (APAC)
THIRTIETH MEETING OF THE METEOROLOGY
SUB-GROUP (MET SG/30)

Bangkok, Thailand, 20 - 24 July 2026

Agenda Item 6: Turbulence Information**AVAILABILITY OF AIR-REPORTS FROM THE UNITED STATES**

(Presented by the United States of America)

SUMMARY

This paper provides an update to AIREP availability via the Washington Inter-Regional OPMET Gateway (IROG)

1. INTRODUCTION

1.1 In 2025 during the MET SG/29 meeting, the US informed the meeting that it would explore the potential availability of obtaining a listing of air-reports (AIREPs) attained by the World Area Forecast Centre (WAFC) Washington and the WAFS Internet File Service (WIFS). This IP provides an update to that query.

2. DISCUSSION

2.1 During last year's meeting there was a broader turbulence discussion. (FLIMSY/01 – DGCA/60 DISCUSSION AND OUTCOMES ON TURBULENCE). Including questions about turbulence availability, the importance of timely meteorological data, turbulence forecasting, and continuous vigilance during monsoon seasons. The meeting also noted that while such reports are currently exchanged among operators within the International Air Transport Association (IATA) forum, they are not readily accessible to meteorological service providers.

2.2 In that discussion the United States highlighted one of the Washington IROG requirements, to source the world's OPMET from the Aeronautical Message Handling System and store and forward the data to WAFC Washington. With this in mind, and the AIREP discussion above, WAFC Washington ran a check of all the AIREPs from April 2026 through June 2026. That information is in Appendix A below.

2.3 A review of Appendix A provides States with how often AIREPs are sent, their ICAO region, country, and WMO ID. Please note that the use of the term “PIREP” in this report has the same meaning as an AIREP.

3. ACTION BY THE MEETING

3.1 The meeting is invited to note the information in this paper and in Appendix A
