

ICAO

International Civil Aviation Organization

**TENTH MEETING OF SPECTRUM REVIEW  
WORKING GROUP (SRWG/10)**

Bangkok, Thailand, 04 – 06 February 2026

**Agenda Item 10:** Review the Point of Contact (PoC) of States on frequency affairs

## **REVIEW POC OF STATES**

(Presented by the Secretariat)

### **SUMMARY**

This paper presents the current status of PoCs of States on frequency-related affairs, updated in the SRWG/9 meeting for review and update.

## **1. INTRODUCTION**

1.1 The current practice of aeronautical frequency coordination performed by the ICAO Regional Office is implemented as communication between the ICAO regional officer and the Point of Contact (PoC) in APAC States/Administrations.

1.2 The currency and completeness of the POC list are basic requirements for efficient and timely coordination.

## **2. DISCUSSION**

2.1 The current process for frequency coordination has served the APAC States/Administrations over the years and is considered an efficient method of coordination. The basic principle involves a minimum bureaucracy when performing frequency coordination and registration.

2.2 ICAO APAC Office accepts requests for frequency coordination **from State focal points for frequency only**. In case a request is received from a member who is not a focal point for frequency affairs, the basic response shared by the ICAO APAC Office is to arrange an email from the designated frequency PoC or CNS focal point about the new frequency PoC information.

2.3 However, due to the turnover/change of contact staff in the civil aviation organization of States/Administrations, regular review of the PoC is deemed necessary. States/Administrations are always encouraged to provide ICAO APAC Office with revised PoC information in case of any changes.

2.4 As a follow-up action, the ICAO APAC Office issued a State Letter Ref.: T 8/8.9 - AP057/21(CNS) with Subject: *Focal Point for Frequency Coordination* on 08 April 2021 to remind Administrations to revise and update the POC on frequency affairs.

2.5 The ICAO Secretariat presented WP/20 to CNS SG/26 to highlight the need to contact Air Navigation Service Providers (ANSPs) from time to time for CNS-related issues, both for urgencies such as severe frequency interference/jamming and for administrative purposes and regional coordinated

planning such as frequency-related documents update, etc. The CNS SG/26 meeting reviewed and further updated relevant PoC lists.

2.6 Since then, to ensure this correspondence mechanism works efficiently and accurately on frequency coordination, the focal point for the frequency coordination list has been updated in SRWG meetings.

2.7 The latest PoC on frequency affairs, which has been reviewed and updated by SRWG/9, is provided in **Appendix A** of this paper for meeting updates.

### **3. ACTION BY THE MEETING**

3.1 The meeting is invited to:

- a) note the information contained in this paper;
- b) review and provide/update the PoC information in **Appendix A**; and
- c) discuss any relevant matters as appropriate.

-----
