

APAC Bi-Weekly ATFM Conference

ASIA-PACIFIC ATM/ATFM STATUS UPDATE

**Published:
26 May 2023**

About This Document

Collaborative Decision Making (CDM) is the backbone of effective regional air traffic flow management (ATFM) and efficient air traffic management (ATM) operations. The APAC Bi-Weekly ATFM Web-Conferences are organized every two weeks and serves as a platform to enable regular information exchange and CDM among Asia/Pacific ANSPs. The web-conferences, participated by air navigation service providers (ANSPs) from States/Administrations in the region, include discussions on ATM resource status, traffic demand situation, weather outlook, expected or planned ATFM measures, and other information pertinent to air traffic operations around the region.

This ATM/ATFM Status Update document captures key ATM status, ATFM outlook, and other pertinent information from ANSPs participating in the bi-weekly web-conferences. It is designed to provide ATM situational awareness for the region. Information provided include, e.g., ATM status at various resources, ATS unit staffing levels, runway operations, and expected ATFM measures.

Lao PDR (Vientiane FIR)

Information Updated	4 August 2022
Precis	<ul style="list-style-type: none"> - Traffic Demand Update - Weather Outlook - COVID-Related Restrictions
Traffic Demand Situation	<ul style="list-style-type: none"> - All local airlines had suspended flight operations since 30 March 2020 until 22 May 2020 in line with the Order of Prime Minister Ref No: 06/PM dated 29 March 2020 and subsequent notices from Prime Minister's Office including Prime Minister Office's Notice No. 1049/PMO, dated 30th September 2020 and No. 1202/PMO, dated 31 October 2020. Having said that, the domestic flight operation has been resumed since 22 May 2022 in accordance with COVID-19 Recovery and Preventive Measures. Particularly, temperature check-up is conducted at Terminal's Gate and Check-In Counter. - In overall, 95% reduction in traffic demand in international flights compared to pre-COVID-19, while domestic flights foresees slight growth in demands based on the additional domestic flights in high-demand routes.
Significant Weather Outlook	Expect summer thunderstorms in Vientiane FIR (all areas)
ATM Status	<ul style="list-style-type: none"> - Staffing is back to work at all ATS units but still follow the COVID-19 Recovery and Preventive Measures
ATFM Measure Outlook	<ul style="list-style-type: none"> - No ATFM measure expected
COVID-19 Flight Restrictions	<ul style="list-style-type: none"> - Suspension of all international commercial flights including schedule and non-schedule passenger flights entered into Lao PDR must be subject to the application submitted through the Department of Civil Aviation of the Lao PDR, E-mail: laodca@laotel.com for further consideration. - Domestic flight operations across Lao PDR are permitted without authorizations in line with the preventive and protective measures of National Covid-19 Task Force are met. Provided that travelling passengers must be vaccinated fully under WHO regime before boarding the aircraft. - All In-bound approved flights are strictly urged to collaborate with National Covid-19 Task Force Committee to facilitate and provide advisory information to their passengers in accordance with applicable preventive measures and social distancing during aircraft disembarkation. - Lao and foreign air carriers shall ensure that arrival foreign passengers entering Lao PDR have already

	<p>installed Lao KYC and received QR code from www.laogreenpass.gov.la and relating insurance must be purchased upon arrival by relevant passengers and they shall bear the cost in line with the Notification of Secretariat Covid-19 Task Force Committee No.3018/ສພກ, 02 March 2021 and Directive of National Covid-19 Task Force Committee on Recommended Practice in relation to foreigners who are willing to enter the Lao PDR via international airports and borders, No 4065/TF, dated 05 August 2021.</p> <ul style="list-style-type: none"> - All air carriers entering into Lao PDR shall be subject to preventive and responding measures including penalty and fines in case of negligence or non-compliance of measures imposed by National Covid-19 Task Force Committee and sub-sequential measures by the Department of Civil Aviation of the Lao PDR.
<p>COVID-19 Entry Restrictions</p>	<ul style="list-style-type: none"> - The restriction of landing times during 06:00 AM to 06:00 PM is lifted (the measure is no longer valid). However, to optimize technical measures including COVID-19 preventive and protective measures applicable, any international flights entering into the Lao PDR in case of exceptions and pre-authorization of over flight and landing permit are encouraged to land at any international airport in Lao PDR during 06:00 AM to 12:00 PM. For those arrival passengers, the relevant airlines are urged to fill out the list of arrival passengers in line with the template by the competent health authorities before the arrival time. - All tourists and visitors that are listed for Lao Stay Safe and Lao Green Pass campaigns are subject to relevant tour packages approved by Ministry of Information, Culture and Tourism, Ministry of Foreign Affairs and National Covid-19 Task Force Committee. Meanwhile, passengers from countries or transit in countries including diplomats, a staff of any international organization, expert, investor, businessman, technical officer and foreign worker who has essential and urgent need to carry out respective duties at an embassy, activities and projects shall be depending on considerations and approvals from National Covid-19 Task Force Committee. - For Lao nationals who wish to return to Lao PDR, they need to register at the Lao embassy or consulate general at the country of their residence. - Upon receipt of written authorization in relation to a proper visa type, any individual who does not have a

	<p>valid entry visa to Lao PDR must apply for a visa at the nearest Lao embassy or consulate general at the country of departure. In addition, every individual must have a negative test for Covid-19 certification using RT-PCR endorsed by competent medical institution and has been issued no more than 72 hours prior departure to Lao PDR.</p> <ul style="list-style-type: none"> - Every individual must arrange a government designated hotel for 2 days quarantine and another 5 days quarantine could be performed at their residence after the Negative Result of PCR Test confirmed by the relevant authorities. - Relevant airlines entering into Lao PDR are strongly advised to complete and provide the List of arrival passengers which include necessary information such as full name, passport number, gender, approval number for entry into Laos, COVID-19 Test Result carried out no more than 72 hours before their departure flights to Laos must be Negative (-), contact person and phone numbers in a proper manner.
<p>Other Related Information</p>	<p>Please refer to:</p> <ul style="list-style-type: none"> - Pursuant to Prime Minister’s Office’s Notice No. 1049/PMO, dated 30th September 2020 and No. 1202/PMO, dated 31st October 2020. - Pursuant to the Prime Minister Office’s Notification, No. 258/PMO, dated 1st March 2022. - According to the Notice on Travel Advisory for Entering and Exiting Lao PDR No. 2143/MOFA.TF, dated 17 March 2022. - According to Notice from Task Force Committee, MOFA No. 1861/MOFA.TC, dated 31st July 2020, in relation to Procedural Advisory on Document and Steps required for seeking authorization for entry and exit of Lao PDR during the implementation of measures to prevent, control and respond to the COVID-19 pandemic. - Guidance on Relief Measures on Self-Quarantine for Travellers who travel from countries that have no COVID-19 Community Transmission imposed by the National Task Force Committee for Prevention, Control and Response to COVID-19 Pandemic, No. 3053/ສພກ, dated 14th October 2020.

Malaysia (Kuala Lumpur FIR and Kota Kinabalu FIR)

Information Updated	24 May 2023
Precis	CAA Malaysia ATFM Trial Implementation
Traffic Demand Situation	CAA Malaysia's implementation of Air Traffic Flow Management (ATFM) measures for flights to Langkawi Airport due to increased air traffic and congestion due to two daily airspace closure for airshows. These measures aim to manage the surge in demand, ensure operational safety amidst dynamic flight patterns, and manage potential strains on airport resources effectively. Normal AAR for Langkawi is 6 and the government approved for extra flights into Langkawi that make the demand increase up to 11 per hour. Therefore, Ground Delay Program (GDP) was developed to reduce traffic congestion.
Significant Weather Outlook	In May, the country's weather conditions are expected to be affected by the southwest monsoon phase. During the southwest monsoon period which usually starts from mid-May to September, thunderstorms and heavy rains are expected to decrease.
ATM Status	Across Malaysia, our Air Traffic Service (ATS) units consistently operate at maximum capacity. However, we anticipate a scheduled downturn in arrivals at WMSA (Subang) airport throughout the period from the 14th to the 20th of June, 2023. This temporary adjustment is due to airspace restrictions stemming from planned military activities.
ATFM Measure Outlook	<p>On the 18 May, 2023, Malaysia embarked on an operational trial of ATFM involving Langkawi, Subang, and KLIA airports. At present, our teams are actively engaged in conducting simulations for KLIA and Subang, which necessitate managing a high volume of both domestic and international air traffic. Consequently, our ATMFU has prioritized Langkawi as a pivotal training area. This includes issuing CTOT to aircraft in order to effectively balance airport demand and capacity in light of the twice-daily airspace closures due to airshows.</p> <p>Flight schedules collected from marketing sources, the National Slot Coordination Malaysia, and/or flight clearances are used to create strategic and pre-tactical demand profiles, which are then compared to flight plans filed prior to departure.</p> <p>In the event of airspace closure, AAR was reduced to 0. Due to aircrafts arriving after the closure will result in traffic congestion, they were provided with CTOT to meet</p>

	the normal AAR in Langkawi which is 6 per hour. The capacity may drop in response to new demands or limitations from Langkawi, such as an extension of the airshow's runtime or a reduction in available bays.
COVID-19 Flight Restrictions	nil

United States (Oakland Oceanic FIR)

Information Updated	2 August 2021
Precis	<ul style="list-style-type: none"> - Revised domestic and international traffic data - System Capacity not limited by ATC Staffing
Traffic Demand Situation	Domestic traffic demand near pre COVID levels at most facilities. International passenger traffic remains low. High demand for cargo operations in all sectors. General Aviation volume remains near normal.
Significant Weather Outlook	Expecting an average Pacific storm forecast for summer and fall of 2021, with La Niña potentially emerging during the September-November season and lasting through the 2021-22 winter (66% chance during November-January). Western US is experiencing an unusually hot summer with record temperatures and higher wildfire potential across the region.
ATM Status	All FAA facilities are operational. Staffing at most larger facilities have returned to normal with revised cleaning procedures in place. A small number of controllers tested positive at several ATC facilities. ATC alerts occasionally issued to support facility cleaning during non-peak hours. Current staffing supports present traffic demand.
ATFM Measure Outlook	No additional ATFM measures are in place due to COVID restrictions. Decreased oceanic demand has increased opportunity to approve crew requests for routing efficiencies.
COVID-19 Flight Restrictions	Currently no FAA facility is restricting traffic due to COVID related factors. Current traffic delay status may be found at: https://www.fly.faa.gov/flyfaa/usmap.jsp
COVID-19 Entry Restrictions	The US has revised entry procedures. See Travel entry restrictions for specific States at the following links Department of State Travel Restrictions and CDC Travel Guide . Also, Several Small Island States within the Oakland FIR established additional entry restrictions. Check with their Embassy for current restrictions.
Other Related Information	The US has granted waivers to several current regulations and provided additional guidance and COVID related information at” Novel Coronavirus (COVID-19) Update” (https://www.faa.gov/news/updates/?newsId=94991)
