DANGEROUS GOODS PANEL (DGP)

MEETING OF THE WORKING GROUP OF THE WHOLE

Abu Dhabi, 4 to 8 October 2004

Agenda Item 2: Development of recommendations for amendments to the *Technical Instructions* for incorporation in the 2007/2008 edition
2.3: Part 3 — Dangerous Goods List and Limited Quantities Exceptions
Agenda Item 3: Development of recommendations for amendments to the *Supplement* to the *Technical Instructions* for incorporation in the 2007/2008 edition

EDITORIAL

(Presented by M. Hinoul)

1. INTRODUCTION

1.1 ICAO Technical Instructions

In column 9 of the Dangerous goods list the packing instruction for packing group III of UN 2545 **Hafnium powder, dry** is Y416. This should be packing instruction 416.

1.2 Supplement to the ICAO Technical Instructions

The Dangerous Goods List in the Supplement to the Technical Instructions (S-3;2) still contains some proper shipping names with the wording 'inhibited' instead of 'stabilized' while the proper shipping name in the blue pages of the Technical Instructions has been corrected. This is an overlook due to the change of the proper shipping name some years ago.

The incorrect proper shipping names in the Supplement are:

- UN 1085 **Vinyl bromide, inhibited**
- UN 3079 **Methacrylonitrile, inhibited**

2. PROPOSAL

2.1 ICAO Technical Instructions

Change the packing instruction in column 9 of the Dangerous Goods List for UN 2545 **Hafnium powder, dry** from Y416 into 416.

2.2 Supplement to the ICAO Technical Instructions

Change the word 'inhibited' in the proper shipping names of UN 1085 and UN 3070 into the word 'stabilized'

— END —
