Agenda Item 2: Development of recommendations for amendments to the *Technical Instructions* for incorporation in the 2007/2008 edition
2.1: Part 1 — General

DANGEROUS GOODS TRAINING

(Presented by J. Abouchaar)

1. INTRODUCTION

1.1 Part 1;4.2.3 requires that a certificate must be issued confirming that the test following a dangerous goods course has been completed satisfactorily. Part 1;4.2.4 then requires that a copy of this certification be retained as part of the record of training.

1.2 Most operators and training providers now maintain their training records electronically and the safety benefit of requiring that a hard-copy certificate be issued and a copy retained is questioned.

2. PROPOSAL

2.1 It is proposed to amend Part 1;4.2.3 and 4.2.4 as follows:

4.2.3 A test to verify understanding must be undertaken following training. ~~and a certificate issued confirming~~. Confirmation that the test has been completed satisfactorily is required through the issuance of a certificate or an electronic record.

4.2.4 A record of training must be maintained which must include:

a) ...
...
e) ~~a copy of the certification issued when the individual was trained~~, evidence which shows that a test has been completed satisfactorily, including a copy of the certification, when issued.
