DANGEROUS GOODS PANEL (DGP)

MEETING OF THE WORKING GROUP OF THE WHOLE

Montreal, 18 to 22 April 2005

Agenda Item 5: Discussion of miscellaneous dangerous goods issues

ICAO DGP WEBSITE

(Presented by Judith Code)

1. BACKGROUND

1.1 Prior to each ICAO DGP Working Group of the Whole and Plenary session Transport Canada conducts a formal consultation process with its many civil aviation dangerous goods stakeholders. To ensure they have adequate time to review the documents and prepare their comments each of the stakeholders is sent electronic or hard copies of the Working Papers and Information Papers as they are posted on the ICAO DGP Website.

1.2 E-mailing Working Papers and Information Papers is a lengthy process that lends itself to error, e.g., omission of documentation that is critical to the discussion. In order to avoid this situation it would be better to refer the stakeholders to the ICAO DGP website. Unfortunately this site is not currently open to the public.

1.3 The contents of the site are:

- **Home**
  - Guidance document on diagnostic specimens (5/03)
  - Addendum 2 to the Technical Instructions (2003-2004 edition)

- **Administration** (DGP members do not have any administrative permissions on this site.)

As none of the information currently found on the website is of a secure nature and its easy access by the public will enhance the consultation process it is recommended the ICAO DGP website be made available to the public.

2. PROPOSAL

2.1 The ICAO DGP is asked to support the proposal that the ICAO DGP Secretariat arrange public access to the ICAO DGP Website.
