DANGEROUS GOODS PANEL (DGP)

MEETING OF THE WORKING GROUP OF THE WHOLE

Abu Dhabi, 4 to 8 October 2004

Agenda Item 2: Development of recommendations for amendments to the *Technical Instructions* for incorporation in the 2007/2008 edition
2.4: Part 4 — Packing Instructions

PACKING INSTRUCTION 911

(Presented by CEFIC)

1. INTRODUCTION

1.1 UN 3077 **Environmentally hazardous substance, solid, n.o.s.** is assigned to Packing instruction 911. There is no weight limit for said entry.

1.2 Additionally "Note 6 - Portable tanks" of the Introductory Notes to Chapter 4 indicates the following exception:

> With the approval of the appropriate authority of the State of Origin, certain dangerous goods may also be carried on cargo aircraft in portable tanks in accordance with the provisions of Part S-4, Chapter 12 of the Supplement.

2. INQUIRY

2.1 The Chemical Industry would like to know from the Dangerous Goods Panel, whether it is conceivable, that regulations for the transport by air of Flexible Intermediate Bulk Containers (as defined in the 13th revised edition of the UN Model Regulations, Paragraph "6.5.3.2 Specific requirements for flexible IBCs") would be implemented in the ICAO Technical Instructions. The type we have particularly in mind is "13H2 - woven plastics, coated".

3. PROPOSAL

3.1 If the Dangerous Goods Panel supports the idea described above, we suggest to form a correspondence working group to work out details of these new rules.
