2.1. Regional Aviation Safety targets

The AFI Regional Aviation Safety Plan (AFI-RASP 2026-2028 Edition) which is aligned with the 2026-2028 edition of the Global Aviation Safety Plan (GASP, Doc 10004), outlines strategic direction for the management of aviation safety in the AFI Region. It provides a summary of the regional initiatives to address the regional high-risk categories of occurrences (R-HRCs), while supporting the achievement of the Regional goals and targets summarized below:

Goals	Targets
Goal 1: Achieve a continuous reduction of operational safety risks	
Goal 2: Strengthen States' safety oversight capabilities	
Goal 3: Establishment and management of State safety programmes (SSPs)	
Goal 4: Increase collaboration at the regional and national levels to address safety issues.	
Goal 5: Strengthening aviation safety planning, through RASPs and NASPs.	
Goal 6: Expand the use of industry evaluation programmes and safety data sharing programmes	

2.2.States safety oversight capabilities

2.2.1. USOAP Effective Implementation Status

The Universal Safety Oversight Audit Programme Continuous Monitoring Approach (USOAP CMA) results show an average Effective Implementation (EI) score for States in the AFI Region of xxxxx%, down from the 20xx value of xxx%. USOAP CMA results also show that xxxxxx% of the States in the AFI Region have achieved the target of 75% EI.

The USOAP CMA measures the effective implementation of a State's safety oversight system. In 2026, xx USOAP-CMA related activities were completed in 5 States of the AFI Region.

2.2.2. Corrective Action Plan performance

2.3.Significant Safety Concerns

A Significant Safety Concern (SSC) occurs when the State allows the holder of an authorization or approval to exercise the privileges attached to it, although the minimum requirements established by the State and by the Standards set forth in the Annexes to the Convention are not met, resulting in an immediate safety risk to international civil aviation. SSCs evolution since 2021 in specific audit areas in the AFI Region is as follows:
