

Feedback on the aviation preparedness planning based on experience of the Republic of Belarus during the COVID-19 pandemic

Anastasiya Bulitskaya
PEL Division Inspector
Aviation Inspectorate of the Department of Aviation
Manama, 2023

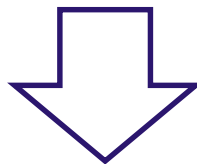

Despite the fact that when pandemic broke out countries around the world completely closed their air but the Republic of Belarus **didn't**. Since March 2020 all Belarussian aviation industry has been operating without interruptions. All Belarussian aviation industry didn't stop work for a day.

Minsk National Airport Emergency Plan (Airport emergency plan)
Approved by the General Director of National Airport Minsk
Approved by the Deputy Director of the Department of Aviation
Point 3.9. Organization and implementation of anti-epidemic measures
in case of a threat of importation of especially dangerous infections
in the territory of the Republic of Belarus.

Instruction-Technology for the organization and implementation of sanitary
and anti-epidemic measures at Minsk National Airport in case of a threat
of importation of infectious diseases that may constitute a public health
emergency of international concern.

Approved by the Head of the Public Health Authority of Minsk and the
General Director of National Airport Minsk **30.04.2019**

On May 7, 2020, the first edition of the Guidelines for the Prevention of the Spread of Coronavirus Infection COVID-19 in Civil Aviation of the Republic of Belarus, developed on the basis of ICAO and WHO guidance materials, was issued and came into effect immediately
