A unique coalition of Founding Partners

AOKpass

Secure - Private - Portable
COVID-19 Compliance Status Pass

ICC AOKpass is a digital COVID-19 Compliance Status pass on your mobile phone (or can be a printed QR code for those without phones) that is built on a user controlled, privacy preserving, blockchain enabled mutual verification system ensuring patient protection and GDPR compatibility. It can hold verified test results, vaccination records or any health certificate.

ICC
INTERNATIONAL CHAMBER OF COMMERCE

The world's largest business organization representing 45 million companies and more than 1.2 billion employees globally, the International Chamber of Commerce (ICC) is uniquely positioned to effectively encourage the uptake of standards like AOKpass at scale

INTERNATIONAL SOS

The world's largest medical and travel security services firm, with 90,000 accredited clinics globally, 12,000 organisations and two-thirds of the Fortune Global 500 companies as clients, 5 million assistance calls every year, 11,000 employees in 1,000 locations in 90 countries worldwide.

SGS

SGS is the world's leading inspection, verification, testing and certification company. SGS is recognized as the global benchmark for quality and integrity. With more than 94,000 employees, SGS operates a network of over 2,600 offices and laboratories around the world.

Key features of ICC AOKpass

1. **Privacy-preserving & GDPR compliant** with all personal health data stored only on the User's phone under their exclusive control

2. **Interoperability** is possible for **any use case** applying our certificate-based framework that can integrate any verification & authentication standard or solution.

3. **Global medical provider network** via Intl SOS Global Assistance Network of over 90,000 accredited clinics & labs

4. **Secure authentication & verification** done via an incorruptible, immutable & highly scalable blockchain solution to prevent fraud

5. **Accessible form factors** caters for all types of Users with or without a smartphone using both digital & hard copy protocols

6. **Integration-lite approach means** clients and partners **do not** need to modify existing data infrastructure or data storage

COMPARISON WITH KEY COMPETITORS

AOKpass is more operationally advanced & versatile than any of its competitors

Benefits to piloting & partnering

We are creating an interoperable global standard

With the International Chamber of Commerce, Intl SOS, SGS and multilateral partners, our global network is unparalleled for the creation of interoperable standards. Our certificate-based system is also purpose-built to readily interoperate with any verification and authentication standard.

User controlled, GDPR compatible

ICC AOKpass is a user-controlled, blockchain-enabled, mutual verification system for the secure sharing of medical information. All information is controlled by the user but attested to by approved health providers, and verifiable to prevent fraud while preserving privacy

Flexible digital COVID cert framework that evolves

We have built a flexible and operational production-ready platform that can evolve with local regulations, medical science and industry best practice as they evolve. We are not offering an immunity pass but a secure COVID compliance framework which can work with tests and vaccines.

Simple & intuitive user experience

Creating, using and verifying COVID health certs for any purpose is easy, intuitive and fast. Creating a pass at the lab can be done in minutes. Presenting and verifying a health pass takes just a few seconds and can use any mobile smart device.

Unparalleled experience with client onboarding

AOKpass has already onboarded major airlines, airports, clinical/lab networks and corporate clients globally. No other COVID health cert solution provider has achieved this at comparable scale or scope. Our onboarding processes can be rapidly accomplished with minimal disruption to existing internal systems and process workflows.

Future digital asset for ALL health certs

AOKpass uses a certificate-based wallet system that can easily accommodate **any** test result, vaccination record or other type of health record beyond COVID-19, allowing users to privately, securely and easily verify their health status with 3rd parties.

Supported by Intl SOS Global Assistance Network globally for end-to-end AOK integrity

AOKpass a key contributor for global multilateral interoperable standards for health passes

Multilateral Working Groups for Restarting Mobility

With the ICC leading, AOKpass is working with peak international industry and sector organisations, including the **European Commission, IATA, ICAO, G20/B20, OECD, WHO, WEF, WTTC & UNWTO**. We also actively engaged with other multilaterals such as **ACI, SICA, SIECA, UN ESCWA**, etc.

WHO eCerts Technical Panel & ISO Digital Health Standard 215

AOKpass is part of the recently established **WHO Technical Panel for vaccination eCerts** and is also a Category A contributor to the **ISO standard 215** technical working group covering medical informatics.

Sovereign Advocacy & Regulation

AOKpass has supported direct advocacy with over **30+ national governments** for the development and implementation of COVID compliance regulation and certification systems. ICC and AOKpass lobbying were instrumental in the passing of regulations for mandatory pre-departure testing in Italy. AOKpass was also the world's 1st use of a digital COVID-19 certificate for immigration purposes between Japan and Singapore with direct support from the Singaporean government.

ICC AOKpass can hold multiple Test or Vaccine certs
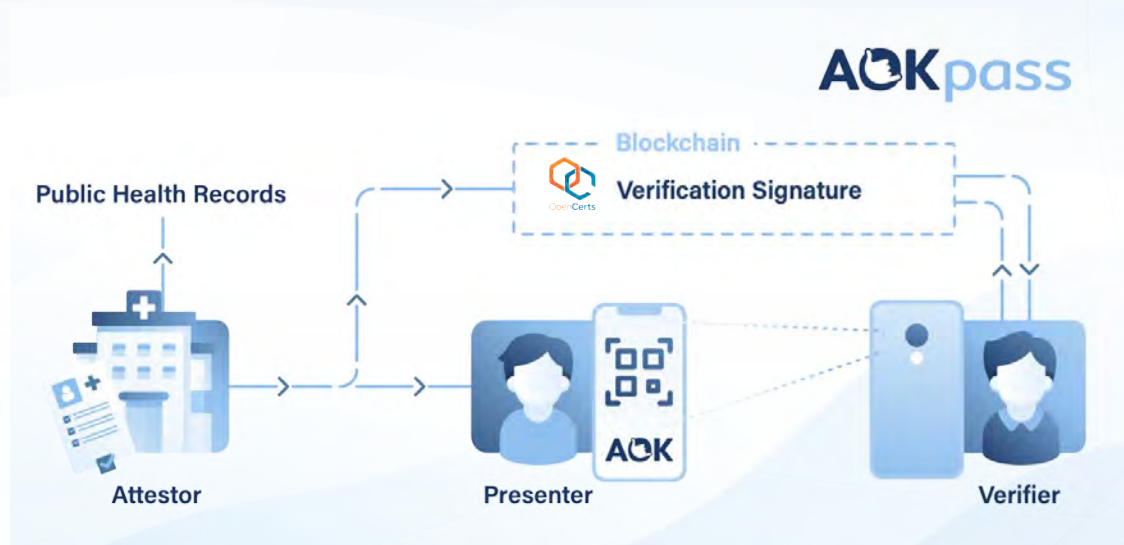

AOKpass FEATURES

Privacy-preserving
Secure (anti-fraud)
Digital portability
Contact-less
Automated Identification

1. Download the AOKpass app to your mobile phone and record your relevant details.

2. Declare your health status. If needed, visit a medical professional. Your records will be stored on your phone.

3. Results are available for certification / approval via the AOK system. Your clearance status is now available for you to use whenever needed

4. The use of a digital signature allows tracing of application activity for safety and/or compliance purposes.

TRACTION - OPERATIONAL DEPLOYMENTS

Deployments launched & in advanced development across 13 countries

Maritime Travel (Q3 2020) E-Drill OIl & Gas (Singapore to Thailand ship)

Flu & COVID Vaccinations (Q3 2020 - Q1 2021) - Intl SOS (Singapore & Geneva), Sanofi Pasteur (Philippines), WHO (Geneva)

Singapore Immigration Checkpoint Authority (Q4 2020) - AOKpass can now be scanned to allow entry to Singapore from Indonesia, Malaysia and Japan.

Air Travel

(Q4 2020) Etihad Airways - Paris (CDG), Abu Dhabi (AUH), Pakistan (ISB), Pakistan (LHE), Pakistan (KHI)

(Q4 2020) Alitalia - Rome (FCO), New York (JFK), Dubai (DXB), Abu Dhabi (AUH)

(Q4 2020) Singapore Airlines - Japan to Singapore for world's 1st use of a digital health pass to cross immigration

(Q1 2021) French airlines - Groupe ADP, Paris (CDG), San Francisco (SFO), Point-a-Pitres (PTP), La Reunion (RUN), Fort de France (FDF), French Bee, Air Caraibes & Air France.

(Q2 2021) Air France & Eva Air - San Francisco (SFO), Los Angeles (LAX), Paris (CDG), Taipei (TPE).

(Q2-3 2021) Cathay Pacific Hong Kong (HKD) to Singapore (SIN) travel corridor

Country Pilot (Q1 2021) City of Girona, Spain (population ~800k) for city-wide return to economic activity & public events, including restaurants, cinemas and sports matches.

Successful Maritime Pilot: Singapore to Thailand

PTTEP and Songkhla Port authorities in Thailand verified the crew's AOKpass QR code (for the COVID-19 test done in Singapore) and **agreed to a 6-day reduction in quarantine period on arrival in Thailand - cutting down days on the rig**

"WOW!!! Thank you. The guys will be elated. Especially 2 of them who have been on the rig for 5 months without a day off!"
Alex Maroske, Crew Manager

1. EDrilling crew members get a PCR test (nasal swab) for COVID-19 from quality assured Singapore medical provider (Raffles Hospital)

2. Medical staff approves the AOKpass, which creates a universal and verifiable authentication signature

3. The destination port authority confirms the AOKpass authentication of the mariner record. Upon confirmation, the user is approved for entry.

Country Pilots: Catalonia (Spain)

Pilot Region	City of Girona in Catalonia, Spain with population approx 800,000
Use Case	Restart of economic activity & large scale public events
Start Date	Commenced 27 January 2021 (sandbox deployment Q2 2021)
Details	Antigen tests & COVID vaccinations to be provided by pharmacists & AOKpass used to verify authenticity and validity (48hrs for tests & 6 months for vaccines)
Partners	Girona Chamber of Commerce, Girona City Council, Girona Professional Association of Pharmacists, local businesses & venues, and Catalonian Blockchain Centre

Girona Pilot announcement

OECD Spain announcement citing AOKpass as a model solution for COVID digital health passes

AOKpass Vaccine Pilots: WHO & Sanofi-Pasteur

Context: The World Health Organization is a specialized agency of the United Nations responsible for International Public Health

Need: Verify vaccines & vaccination documentation

Goal: Test & implement global authentication technology for vaccines & vaccination

Pilot site(s): WHO headquarters, Geneva

Timeline: Q1 2021

Context: Sanofi-Pasteur is the world's oldest & largest vaccine developer & manufacturer as well as leading COVID-19 vaccine candidate.
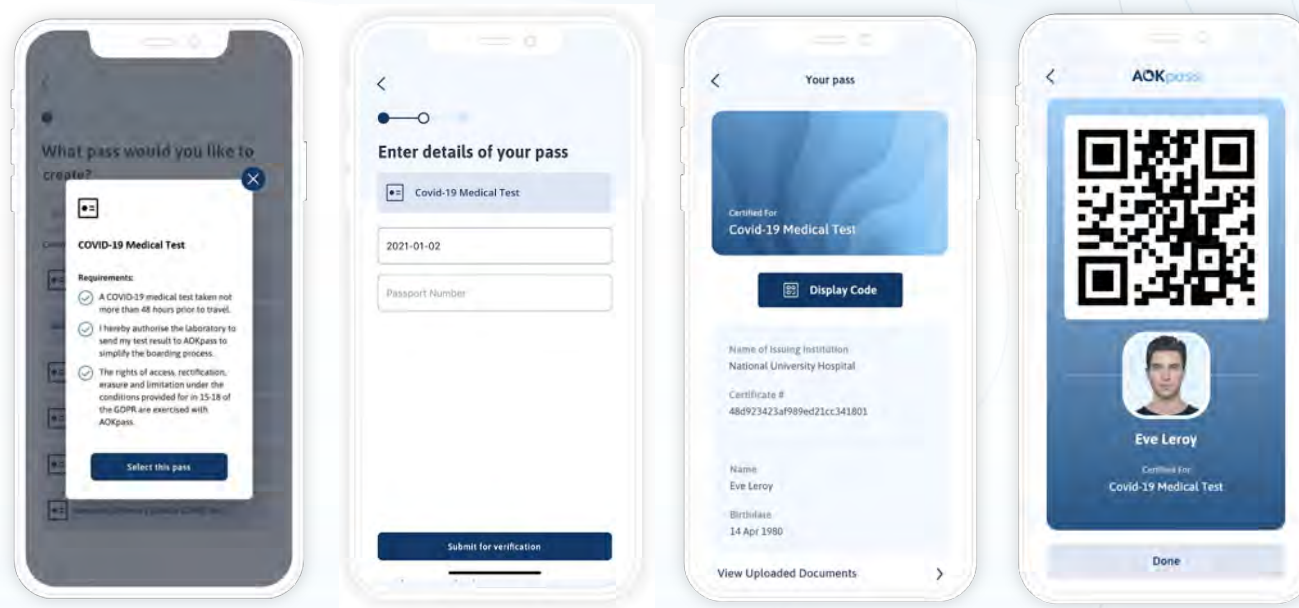

Need: Verifiable digital vaccine certification at global scale to fight life-endangering fraud & counterfeits.

Goal: Test & implement global authentication technology for vaccines & vaccination

Pilot site(s): Manila, Philippines

Timeline: Live from October 2020

AOKpass user flow is simple & intuitive

Authentication network which can be used with <u>ANY</u> testing modality or vaccine authentication

RT-PCR (24 hour turnaround workflow)
- Established technology
- Typically located in established clinical laboratories
- Soft integration of AOKpass allows clinical labs to authenticate and share test results without programming or server-side modifications

RT-PCR (3-4 hour rapid workflow)
- Developing technology
- Suitable for at or near-airport testing

Antigen testing (15-30 minute point of care workflow)
- Typically performed outside a clinical laboratory
- The AOKpass workflow can authenticate point of care testing even when it is performed outside the area of a clinical lab

Vaccination authentication
- Testing workflow creates the infrastructure for global authentication and verification of vaccination history
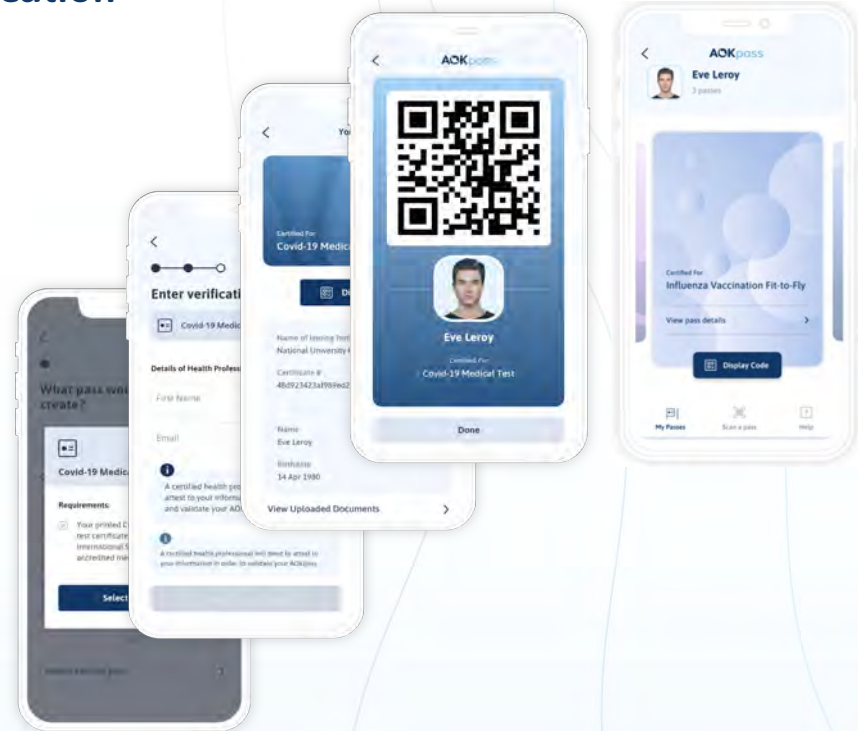

AOKpass Example Traveller User Flow

1. Airline advises travellers of testing/vaccination requirements & AOKpass User Guide.

2. Traveller downloads AOKpass app & creates their user profile.

3. Traveller attends approved clinic for their test/vaccination with ID.

4. Test/vaccination is administered. Once confirmed, clinic authenticates the traveller's digital health cert via AOKpass system.

7. Airline staff or security/immigration personnel scan QR code to verify traveller has a valid cert as required under regulation, policy or other rules.

6. Traveller uses AOKpass to present QR code at check-in, boarding and/or immigration checkpoint.

5. AOKpass generates a unique QR code for the traveller, which is linked to their digital health cert.

AOKpass Example Employee User Flow
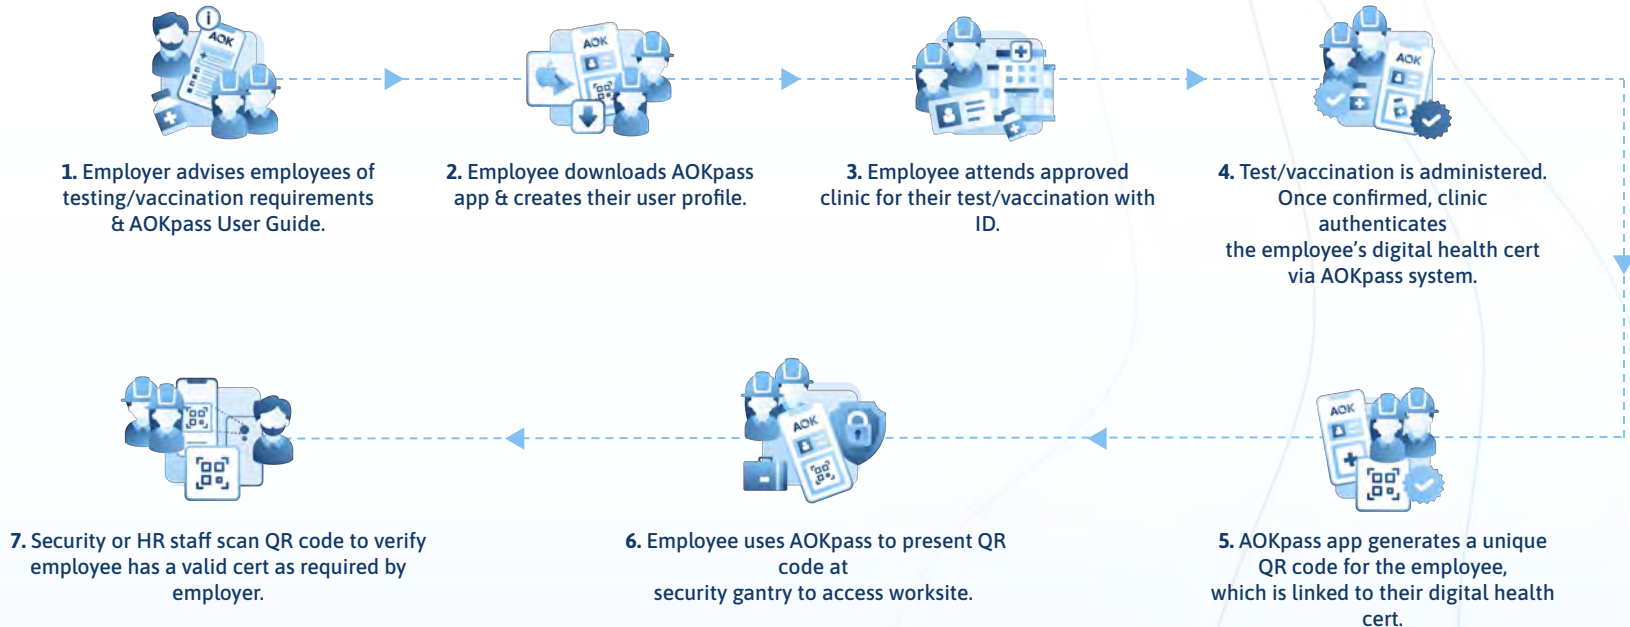

1. Employer advises employees of testing/vaccination requirements & AOKpass User Guide.

2. Employee downloads AOKpass app & creates their user profile.

3. Employee attends approved clinic for their test/vaccination with ID.

4. Test/vaccination is administered. Once confirmed, clinic authenticates the employee's digital health cert via AOKpass system.

7. Security or HR staff scan QR code to verify employee has a valid cert as required by employer.

6. Employee uses AOKpass to present QR code at security gantry to access worksite.

5. AOKpass app generates a unique QR code for the employee, which is linked to their digital health cert.

CORE TEAM

Dr Chester Drum, M.D. Ph.D
Co-founder & Chief Medical Officer

20 years of clinical experience in managed care and development of novel analytics for predicting patient outcomes. He has won awards, numerous grants and holds multiple patents. He oversees a large research facility and bioinformatics as Asst. Professor at NUS and consultant cardiologist at NUH where he cares for COVID-19 patients.

Darren Toh
Chief Executive Officer

Co-founder Perlin Network, Co-founder BlockPR, ex-Director Carbon Conservation, legal & PR advisor to successful blockchain projects REN, Fantom, Santiment, Terra, Thorchain & ex-KPMG. His work is covered in Bloomberg, Forbes, CNA, CNBC, Sky News, Financial Times, VentureBeat, Straits Times, Wall Street Journal, NASDAQ etc.

Michael Blishch
Chief Technical Officer

15 years of experience in developing health tech and is one of the authors of the Ukrainian's most used medical information system. Michael is focused on mobile and web development, including state-of-the-art systems for storing medical information and document circulation as well as revenue and customs admin.

Dorjee Sun
Co-founder & Strategic Oversight

Co-founder 20+ companies including Perlin Network, Carbon Conservation (which secured carbon finance of $400M+), Special Advisor to the ICC & recipient of awards for his innovative work in finance and conservation. His work is covered in WSJ, Forbes, Fortune, TIME, Esquire, ABC, PBS, BBC, Discovery, CNBC, Sydney Morning Herald, NASDAQ etc.

Full -time team also includes: 2 senior developers, Operations Director, Operational Manager, Design Manager & Finance/Admin Officer. This does not include staff provided by distribution partners Intl SOS and ICC.

Based in Singapore we have Medical Specialists

Yogita Goswami
Chief Operating Officer

oversees the day-to-day administrative and operational function of AOKpass. She is a certified Lean Six Sigma green belt professional and holds a Master of Business Administration degree. She is an energetic chief operating officer with over 16 years of experience managing high level corporate operations as a change agent, leader, and communicator in the Healthtech industry. Formerly she worked with a global health and security services firm where she managed numerous projects with 100% success rate. Yogita has a passion for bridging culture and people. Outside of work she loves to sketch, paint and travel.

Shiva Narrthine
UI/UX Designer

is a product designer with experience in UI/UX design and UI development. She holds a software engineering degree and has held positions as a designer and analyst. Formerly she was with McKinsey & Company and VLT Labs, and has worked on designing and launching digital solutions for large organisations as well as startups in various industries across Southeast Asia, Australia, and the USA. Outside of work, Shiva brews her own artisanal hipster cold brew coffee, enjoys travel, family and lots of food.

Eleanor Salt
Head of Business

manages operations and business development for AOKpass. She holds a business communication degree and has held positions in corporate advisory, funds management and fintech. Formerly she worked with corporate advisory firm, Seed Partnerships, on a number of successful IPO transactions, including KKR Credit Income Fund (ASX: KKC) which raised $925 million in 2019. When she isn't working, Eleanor enjoys being outdoors, camping, bushwalking and sailing.

Ionut Nechifor
Graphic Designer, UI & UX, Web Designer

is a visual development designer with intensive experience in web design and graphic design area. He holds an art and design degree and has held positions as a digital designer and concept artist. He has worked on designing and creating digital graphics for startups and large organisations around the United Kingdom and across the globe for different industries from Australia, Canada and the USA. Outside of work, Ionut love riding motorcycles, enjoys travel and family time.

APPENDIX: ICC AOKpass Mobile App

AOKpass

What is AOKpass?

AOKpass is a mobile application and data security platform that allows users to verify their medical testing with third parties. Users can easily store and show their pre-flight PCR test results after approval by an accredited health provider.

Users have exclusive control over their personal health data, which is stored only on the user's mobile device and never on any external database or centralised system.

Download **AOKpass** for IOS and Android

Download on the **App Store**

ANDROID APP ON **Google play**

Disclaimer: Since your personal health data and Digital Status Certificate(s) are stored locally on your mobile device, AOKpass App users have sole responsibility for ensuring that they setup and maintain their mobile device settings at the appropriate and highest level of security. For example, you should not use the AOKpass App on "rooted devices" and also should ensure that you have a passcode and/or biometric locks enabled.

ICC INTERNATIONAL CHAMBER OF COMMERCE   INTERNATIONAL SOS   AOKpass

SETTING UP YOUR PERSONAL DATA

Setting up your profile is really simple.
After downloading the app, follow these steps:

1 — Launch the app and tap on 'Get Started'

2 — Enter your First and Last Name

3 — Take a clear photo of yourself

4 — Enter your date of birth

5 — Check the Privacy Policy checkbox
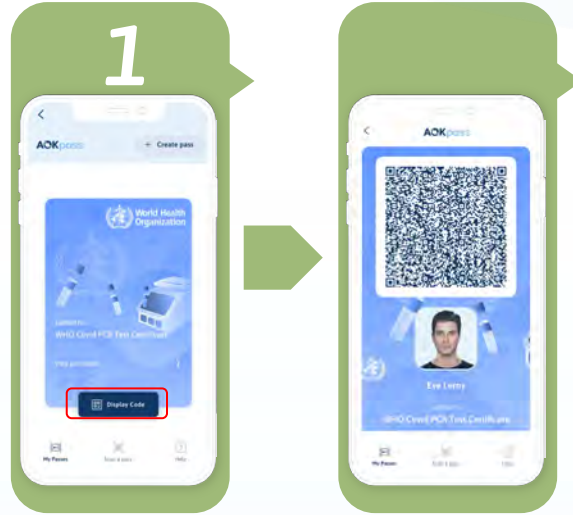

6 — Tap on 'Create Profile'

HOW TO CREATE A NEW PASS

Your AOKpass will allow you to connect your medical results with trips previously booked.
This way you guarantee safety and speed during your boarding process.

1 Launch the app and tap on 'Create pass'.

2 Choose a relevant pass from the list or search for a pass.

3 Read the Requirements and tap on 'Select this pass' to proceed.

4 Upload a copy of your test result, if applicable.

5 Select the date and enter Passport Number / National ID Number. Tap on 'Submit for verification' to proceed.

6 Once attestation is complete, tap on 'Show my pass' to view.

USING AND ACCESSING YOUR PASSES

All passes created are displayed at the 'My Passes' tab. If you have multiple passes, swipe left/right to view them.

1

To use the pass, tap on 'Display Code' to generate your QR code.
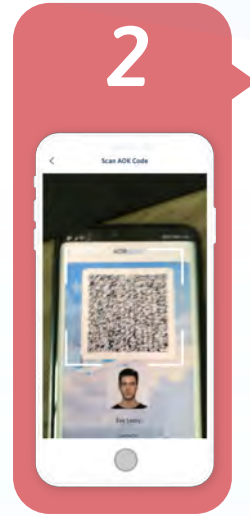

2

For pass validity and other information, tap on 'View pass details'.

HOW TO VERIFY A QR CODE

Your AOKpass will allow you to connect your medical results with trips previously booked.
This way you guarantee safety and speed during your boarding process.

1

2

3

Launch the AOKpass app and tap on 'Scan'.

Place your camera over the User's QR code to start verification process.

Once verified, the screen will display the User status.
