Head of Sustainability  
Aeroporto di Bologna (ITALY)

## BLQ: key figures

**10.7**

million passengers

**101**

direct connections

**34**

countries

**43**

airlines

## The project: key figures

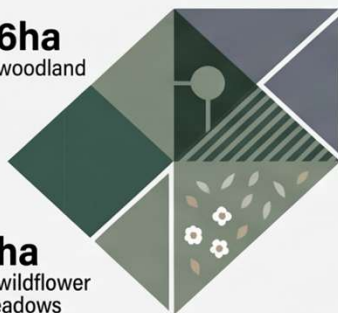

### WORLD'S FIRST FSC® FOREST MANAGEMENT CERTIFICATION

First airport globally to achieve FSC-C214976 certification for a dedicated green area.

### 40 HECTARES OF NATIVE RESTORATION

**36ha**  
of woodland

**4ha**  
of wildflower  
meadows

Equivalent to  
56 football fields

# 28,670

### NATIVE TREES & SHRUBS

Over 50 species selected to balance biodiversity with airport bird-strike risk management.

### ENVIRONMENTAL & SOCIAL IMPACT

Carbon stocks are projected to increase six-fold within the first five years.

# 21,000+ TONNES

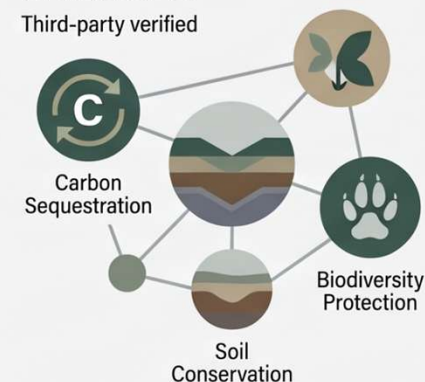

OF CO<sub>2</sub> CAPACITY

### PUBLIC INTEGRATION & CONNECTIVITY

Features a public cycling path connecting the airport to local residential communities.

### CERTIFIED ECOSYSTEM SERVICES

Third-party verified

TOTAL INVESTMENT:  
**€6.6 Million**  
Fully AdB Funded

ANNUAL CARBON SEQUESTRATION:  
**1,500 – 2,500**  
Tonnes CO<sub>2</sub>/Year

BIODIVERSITY VARIETY:  
**30 Tree & 21  
Shrub Species**
