- Calls on Member States to arrange their regulations and procedures governing the operation of New Entrants as well as the common **use by all airspace users** of certain facilities and services so as to facilitate the integration of these operations, while not compromising safety and security, duly addressing environmental implications, and, where necessary, ensuring that these new operations comply with the rules of the air in Annex 2 — Rules of the Air;
- Calls on Member States to ensure that **the common use by all users of airspace** and certain facilities and services **does not disproportionately affect** the regularity, environmental protection and efficiency of civil and military operations;
- Recognizes ICAO's role as **an international forum to facilitate** improved cooperation, collaboration and the sharing of best practices in support of regional initiatives, and to undertake the necessary follow-up activities that build on those initiatives by encouraging increased dialogue between States, New Entrants, existing aviation stakeholders and the space community
