Table CNS II-CARSAM-2

AERONAUTICAL MOBILE SERVICE AND AMSS

Version 0 of 2 Oct 2026, no PfA (initial baseline). 785 service lines (280 locations) in 47 States and Territories. Source file: Table CNS II-6 (rebuilt).docx (2 Oct 2026), rebuilt from Table CNS II-6.docx.

For evaluation. The Word file of this table held only the page layout; the table was rebuilt as proper rows and awaits the OK of the CNS Officer.

EXPLANATION OF THE TABLE

Column 1: The name of the State and the locations within the same where the service is provided.

Column 2: The required services or functions are provided. Suitable abbreviations for these services or functions are listed below.

ACC-L Area control service for flights up to FL 250.
ACC-SR-I Area radar control service up to FL 250.
ACC-SR-U Area radar control service up to FL 450.
ACC-U Area control service up to FL 450.
AFIS Aerodrome flight information service.
APP Approach control service.
APP-L Approach control services below FL 120.
APP-I Approach control service below FL 250.
APP-PAR Precision approach radar service up to FL 40.
APP-SR-I Surveillance radar approach control service up to FL 250.
APP-SR-L Surveillance radar approach control service up to FL 120.
APP-SR-U Radar approach control service up to FL 450.
APP-U Approach control service below FL 450.
ATIS Automatic terminal information service.
D-ATIS Data link-automatic terminal information service.
CLRD Clearance delivery.
FIS Flight information service.
VHF-ER VHF Extended range.
GP Facility providing VHF or HF en-route general purpose system (GPS) communication.
These facilities provide air-ground radiotelephony for all categories of messages listed in
Annex 10, Volume II, 5.1.8. This system of communication is normally indirect, i.e.
exchanged through the intermediary of a third person who is usually a communicator at an aeronautical station.
SMC Surface movement control up to limits of aerodrome.
TWR Aerodrome control service.
VOLMET VOLMET broadcast.

Column 3: Number of voice VHF channels for the corresponding services indicated in column 2.

Column 4: Number of VHF channels for data communication for the corresponding services indicated in column 2.

Column 5: HF network designators for the corresponding services indicated in column 2.

Column 6: Requirement for HF data link (x) for the corresponding services indicated in column 2.

Column 7: Requirement for satellite voice communications (x) for the corresponding services indicated in column 2.

SAMPLE

Column 8: Requirement for satellite data communications (x) for the corresponding services indicated in column 2.
Column 9: Requirement for Mode S data communications (x) for the corresponding services indicated in column 2.
Column 10: Remarks.
