Pointing to traffic growth and high levels of safety compliance in some States, ICAO's Secretary General told delegates at the Arab Civil Aviation Commission (ACAC) that the Middle East Region is poised to demonstrate leadership in sustainable aviation, provided a regional approach to safety is developed and enhanced.

"As we now confront the challenges of sectoral growth, globally as well as in the Middle East Region, we need to ask ourselves how cooperation between ICAO and ACAC can drive even further progress on targets and needs for this region" Dr. Liu declared, concluding that if the Region can continue to work toward establishing itself as an aviation leader, those results would also contribute to the greater prosperity and long-term sustainability of Middle Eastern societies in general.

Sudan Conference

A two days Conference on the restructuring of the Sudanese Airspace was held in Cairo on 29 and 30 May 2016. The Conference was attended by representatives from Sudan, Egypt, Chad, Saudi Arabia, France, ASECNA, CANSO, IATA and ICAO. The Conference main objective was to present the draft scenarios for the redesign of the Sudan Airspace and initiate the coordination with all stakeholders. ICAO indicated their full support to the challenging project and that the ICAO MID Regional Office will work closely with the Sudan Civil Aviation Authority and its support team in the next few months to foster the coordination with Sudan's adjacent States in order to leverage this ambitious win-win project.

MID Coordination Meetings

- ◆ An Inter-Regional Coordination Meeting between Iran, Iraq, Turkey, EUROCONTROL, IATA (airlines) and ICAO was successfully held on 5 May 2016 in Istanbul, Turkey. The main objective of the meeting was to agree on the measures to enhance the traffic flows between Europe and the Middle East Region, taking into consideration users requirements.
- ◆ A Special Coordination Meeting was held between Iran, Iraq, IATA and ICAO in Istanbul, Turkey on 6 May. The meeting agreed to the re-alignment of the ATS Routes within Baghdad Flight Information Region (FIR) to avoid the conflict zones and the implementation of two new routes, in addition to other bilateral arrangements that would ensure the efficiency of traffic flow between Iran and Iraq.
- ◆ A Coordination Meeting between AACO, CANSO, IATA and ICAO was held at IATA Amman, Jordan from 16 to 18 May 2016, in order to discuss means to address the challenges delaying the implementation of some agreed ATS routes and 10 NM reduced longitudinal separation in MID Region.
