ICAO TRAINING

International Air Law Course

The International Air Law course aims to enable representatives of Civil Aviation Administrations, Civil Aviation Authorities, Airports and Air Navigation Service Providers to support their organization in compliance with international air law, through application of appropriate knowledge and advocacy.

Upon completion of the course, participants will be able to accomplish the following:

a) learn the concepts and rules of international air law;

b) explain the relevance of the rules and procedures of international air law for their own role and functions in their organization; and

c) apply their knowledge and understanding to assist their national administration in improving implementation.
